

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Incurred and Paid from 25th December 1828 to 24th December 1829, both inclusive.

EXTRAORDINARIES 1829:

AN ACCOUNT OF BILLS OF EXCHANGE

Drawn on the Lords Commissioners of His Majesty's Treasury by sundry Persons, for Public Services,
amounting to the Sum of £.2,052,000.

THE several Drawers are Public Accountants for the Sums drawn by them respectively, and they render their Accounts to the Commissioners of Audit, being charged with the total Amount of Bills drawn, without reference to the period at which they may be presented for payment. The Bills drawn by the Commissaries at the several Stations, are paid for Provisions or other Articles required for the use of the Troops, or are negotiated for the supply of Money to the Military Chest.

Whatever Sums may have been granted by Parliament for any Branch of Public Service incurred and paid within the Station, are advanced, in the first instance, out of the Military Chest. All such Advances, if made on account of Naval or Ordnance Expenditure, provided for in the Annual Estimates for those Departments respectively, or for Services annually provided for in the Ordinary Estimates of the Army, are repaid by the proper Departments out of Money imprested to them on account of those Estimates respectively; and the Sums so repaid are credited by the Paymaster General to Army Extraordinaries. The BALANCE is the Expenditure for those Services, which, from not being matter of previous Estimate and specific Grant, constitute the Army Extraordinaries, and are provided for out of the Sum annually voted by Parliament under that head.

AN ACCOUNT OF THE EXTRAORDINARY EXPENSES OF THE ARMY,

Paid from 25th December 1829 to 31st December 1830, both inclusive.

EXTRAORDINARIES 1830.

BILLS OF EXCHANGE

Drawn on the Lords Commissioners of His Majesty's Treasury by the several Officers in charge of the Commissariat on Foreign Stations, amounting to the Sum of £.1,853,511. 0. 2.

All Sums granted by Parliament for any Branch of Public Service incurred and paid at Foreign Stations, are advanced, in the first instance, by the Commissary out of the Military Chest; he negotiating all public Bills on this Country. Such Advances, if made on account of Army, Navy, Ordnance or Miscellaneous Expenditure, provided for in the Annual Estimates for those Services respectively, are repaid in England by the proper Departments out of Money imprested to them on account of those Estimates; and the Sums so repaid are credited by the Paymaster General to Army Extraordinaries. The BALANCE is expended on account of those Services, which, from not being matter of previous Estimate and specific Grant, constitute the *Army Extraordinaries paid Abroad*.

COPY of TREASURY MINUTE, dated 21st January 1831, discontinuing the SALARIES OF COMMISSIONERS and CLERKS of the MILITARY ACCOUNT OFFICE in *Ireland*, and granting RETIRED ALLOWANCES pursuant to Act 3 Geo. IV. c. 56.

Ordered, by The House of Commons, to be Printed, 26 February 1831.

COPY of TREASURY MINUTE, dated 21st January 1831.

READ a Letter from Mr. Stanley, dated 11th instant, wherein he states that he has laid before his Excellency the Lord Lieutenant of Ireland the letter of this Board of the 3d instant, conveying the definitive determination of my Lords in respect of the discontinuance of the full Salaries of the Commissioners and Clerks of the Military Account Department in that country, from the 10th October last, and that this decision has been accordingly notified to the parties interested, requesting therefore that the necessary Warrant empowering his Excellency to sanction the issue of the reduced Salaries, to which the several individuals therein mentioned are now entitled, may be forwarded in the usual manner.

Mr. Stanley also adverts to the two questions submitted in Mr. Gregory's communication to this Board of 14th December last, in regard to the rendering the Commissioners of Military Accounts liable to be called on to enter into a remission of such Disallowances as may have been made by them on the Audit of Military Accounts, and for the admission of which the Accountants concerned may appear within the period prescribed by law, and also as to the disposal of the Records of the Military Account Department; and states, that on these points it will be satisfactory to his Excellency to receive the decision of the Treasury as early as circumstances will admit.

My Lords read their Minute of 12th December 1828, fixing the Amount of reduced Salaries to be paid to the said Commissioners and their clerks.

My Lords also read their Minute of 28th December 1830 on this subject.

Prepare Warrant for placing the undermentioned persons upon the Allowances of the proportions of their present Salary, set opposite to their respective names; such Allowances to commence from the 10th day of October 1830, and to be upon, and payable in Ireland out of, the Consolidated Fund, pursuant to the Act of the 3d of His Majesty Geo. IV. c. 56; namely,

Mr. Barry -	- £. 750 per annum.	Mr. J. Prill -	- £. 86 per annum.
Mr. B. Ottley -	333 —	Mr. R. B. Darke -	102 —
Mr. G. Oakley -	217 —	Mr. W. Greene -	81 —
Mr. G. Whitaker -	160 —	Mr. J. S. M'Murray	63 —
Mr. J. M. Wanty -	126 —	Mr. J. Finney -	63 —
Mr. H. Newton -	112 —	and	
Mr. C. O'Keefe -	96 —	Anne Madden -	15 —

and let the said Warrant contain a clause, stating that in the event of these persons being called into the Public Service, and of their being appointed to or holding situations of equal or greater Emoluments than they now enjoy, the said Allowances should altogether cease; or that if they should be appointed to or hold situations, the Salary and Emoluments of which, together with the Allowances hereby granted, should exceed their present Salary, that such excess should be abated from their Allowance.

Transmit a copy of Mr. Stanley's letter to the Secretary at War, referring to the letter of this Board of 10th instant, and desire he report to my Lords his opinion on the questions of the revision of such Disallowances as may have been made by the Commissioners of Military Accounts, and also as to the disposal of the Records of those Commissioners.

Transmit a copy of this Minute to Mr. Stanley for the information of the Lord Lieutenant.

Let a copy of this Minute be laid before Parliament, as directed by the said Act of the 3d Geo. IV. c. 56.

This Account is not balanced for the reasons given in the Victualling Board's Letters to the Admiralty, of the following dates; viz.—10 February 1830; 2 January 1831; 31 January 1831. In addition to which it may be stated, by way of further illustration, that the first item in the debit side of the Account; viz. "Balance in the Treasurer's hands, 1 January 1830," £.78,644. 0. 2., is not expended merely by the payment of the sums on the credit side of the Account, but is appropriated (together with the sums subsequently received) to the payment of Bills registered in November and December 1829; for instance, 60 Day Bills amounting to £.125,470. 19. 9., which being considered as Cash when made out in 1829, are *then* brought to account so far as regards the *Head of Expenditure*, though *not* paid until due in the *next* year, and consequently interfering with the Balances of that year, so as to preclude the possibility

possibility of making the Account balance when the credit is confined to the Expenditure, or Bills registered in the year 1830, in as far as the same can be made out, with reference to the receipt of Accounts from abroad. While, on the other hand, the Credit side of this Account *includes* the 60 Day Bills [considered as Cash, and therefore brought to account in 1830, amounting, for the 60 Day Bills, to £.115,383. 6. 10.] made out in November and December of that year, but *not payable* till 1831, though in this Account of Expenditure for 1830, they are necessarily (being, as before stated, considered as Cash Payments, so far as regards the Head of Expenditure) placed on the Credit side of the Account, as if they were actually paid out of the Receipts on the Debit side, thus confounding all Balances by the running Receipts and Payments into different years.

To the Right Honourable the Lords Commissioners of His Majesty's Treasury.

The respectful Memorial of the undersigned Members of the Common Council and Trustees of the Liverpool Docks, Merchants, Bankers, and other Inhabitants of the Town of Liverpool,

Sheweth,

THAT your Memorialists, impressed with the great inconvenience which has long been felt by the merchants and others interested in the trade of Liverpool, from the very insufficient accommodation afforded to them, and to the officers of His Majesty's Revenue, in the present Custom-house and offices in Liverpool, beg leave most earnestly but respectfully to draw your Lordships' serious consideration and attention thereto.

Your Memorialists beg to acquaint your Lordships that the existing Custom-house was built almost a century ago, and upon a scale adapted to the extent of trade at that period; and it may perhaps excite surprise, that although the trade has increased in a tenfold amount since the present Custom-house was erected, little or no additional accommodation has been given to the Public, or to the officers of the Revenue.

Your Memorialists lament to contrast the situation of Liverpool with the other Ports of the Kingdom, and in the comparison they cannot but feel that, in this respect, Liverpool has not shared in the liberality of the Crown. For whilst London, and Dublin, and Leith, and other Out-ports have obtained the assistance of Government in the establishment of commodious public offices for the collection of the Revenue, no additional accommodation has been provided in Liverpool, although the extent of her trade, and the amount of revenue derived from it, places her, in a commercial point of view, inferior only to the Metropolis.

Your Memorialists are the more anxious to call your Lordships' attention to this subject at the present time, as it appears the Corporation have it in their contemplation forthwith to fill up a part of the Old Dock.

By the Act of the 51 Geo. 3, c. 148, s. 45, and by that of the sixth year of his present Majesty's reign, a site for a new Custom-house is suggested to be on part of this dock, and your Memorialists are therefore induced to request that your Lordships would be pleased to give directions for the inspection of this advantageous site for the purpose, and that you will be pleased to authorize the erection of a Custom-house and other Public Offices on that or some other convenient situation, thereby aiding the public spirit of the local authorities in their great efforts for the improvement of the town, and encouraging the enterprise of its inhabitants by the favourable consideration of the Crown.

Liverpool, 27 December 1825.

Signed by four hundred and ninety-four persons.

COPY of Treasury Minute, dated 14th February 1826.

READ a Memorial of the Members of the Common Council and Trustees of the Liverpool Docks, Merchants, Bankers, and other Inhabitants of the Town of Liverpool, on the subject of the erection of a New Custom-house at that Port.

Transmit the Memorial to the Commissioners of Customs, and acquaint them that it is the desire of this Board that every possible accommodation consistent with a due regard to economy in the administration of the Public Money should be afforded for the despatch of the business of this great and important Port; and that it appears to their Lordships that the best mode of procuring such information as will enable them to decide what arrangement it will be proper to make with a view of giving increased facility in that respect, will be, that the Commissioners of Customs should despatch one of their Surveyor's General forthwith to Liverpool, in conjunction with a professional person who will be appointed by the Surveyor-General of the Works for that purpose, to survey the proposed site, and report their opinion as to the most advantageous mode of providing for the Public Service, and the accommodation of the Town of Liverpool in the erection of a New Custom-house. Desire, therefore, that they will communicate with the Surveyor-General of the Works, and proceed accordingly, reporting to this Board for further directions the result of this inquiry.

Send a copy of this Minute to the Surveyor-General, and desire he will appoint a proper person to make this inquiry in conjunction with an officer of the Customs.

May it please your Lordships,

MR. HARRISON having, with his letter of the 17th February last, transmitted copy of a Memorial of the Members of the Common Council and Trustees of the Docks at Liverpool, the Merchants, Bankers and others at that Port, submitting the necessity of a new Custom-house at Liverpool, and suggesting a part of the Old Dock there as a site for the building,
and

and signified your Lordships' directions, that, in order to obtain such information as might enable your Lordships to decide what arrangements it might be proper to make, with a view of giving increased facility to the business of the Port of Liverpool, we would communicate with the Surveyor-General of the Works, and despatch one of our Surveyors-General to Liverpool to survey the proposed site, in conjunction with a professional person who would be appointed by the Board of Works for that purpose, and report as to the most advantageous mode of providing for the Public Service, and the accommodation of the Town of Liverpool, in the erection of a new Custom-house, and that we would report the result of the inquiry for your Lordships' directions.

In obedience to your Lordships' commands, we report—

That, after having communicated with the Surveyor-General of the Works, as directed by your Lordships, we directed Mr. Morris, one of our Surveyors-General, to proceed to Liverpool, who in conjunction with Mr. Smirke, appointed by the Board of Works, has surveyed the site proposed for the new Custom-house, and submitted to us a report on the subject, copy whereof, together with copy of the report of Mr. Smirke, which has been forwarded to us by the Surveyor-General of the Works, we beg leave to transmit for your Lordships' information, and for any further directions your Lordships may see fit to give thereon.

Honourable Sirs,

IN obedience to the directions of the Board, I proceeded on the 1st instant to Liverpool, and, in conjunction with Mr. Smirke, from the Board of Works, waited upon the Mayor, for the purpose of ascertaining the intention of the Corporation in regard to the site proposed in a Memorial to the Treasury, for the erection of a new Custom-house at that place; we were informed by the Mayor that the Memorial alluded to was from certain individuals, and not from the Corporate Body of Liverpool; that the right of disposal of the site of the Old Dock is vested in the Corporation and certain Trustees, and that although this Dock had been suggested as a fit place for the erection of a new Custom-house, it was not yet decided in Council whether it would or would not be appropriated to such purpose.

I subsequently called upon the Trustees of the said Dock, and received from their Secretary a similar answer.

With regard to the fitness of the site of the Old Dock for the erection of a building of such magnitude, I am not competent to offer an opinion, presuming that to be the province of Mr. Smirke, to whom, after consulting the Collector, Comptroller and Inspector-General, I delivered a list of the offices and the space which would be required in the new Custom-house, for the due conduct of public business. But as regards the local situation of this Dock for the Custom-house, I am of opinion it is the most eligible that can be selected, for, besides being in the middle of the town and in the vicinity of the Exchange, it is in the centre of the several import and export docks of the port, and, in point of extent, is capable of affording accommodation for any other public office or buildings exclusive of a Custom-house.

25th March 1826.

T. Morris.

Sir,

Stratford-place, March 18th 1826.

IN reference to the Memorial of the Merchants and others at Liverpool, of which you transmitted me a Copy with the Minute of the Lords Commissioners of His Majesty's Treasury, I beg leave to report to you that I went, according to your instructions, to Liverpool, on the 1st instant, and examined the ground offered for the site of the new Custom-house.

I communicated fully with the officers of the Customs to whom I was referred for information upon the subject, and procured also from the officers of the Corporation such an account of the improvements now carrying into effect in that part of the town adjoining the proposed site, as appeared necessary for enabling me to form a correct opinion.

The site offered is that of the Old Dock, formerly the only one, and now about to be abandoned and filled up. It is in immediate connection with the New Docks, which, when completed, will extend in one continued line of more than two miles and a half in length, the New Custom-house standing nearly in the centre of this line fronting the River Mersey.

Several of the principal and longest streets form the approaches to the site, and these are about to be widened in all those parts where they require it.

I do not think that any situation could be pointed out along the whole line of the River possessing so many important advantages for the position of a Custom-house as this, considered in respect of its connection with the River, and the Docks, and with the Town.

In order to state further what portion of this extensive area would be required for the New Buildings, I examined the Offices now used for the Customs, and received a particular

account of the accommodation required for the Establishment. At present it is evident that business is conducted under circumstances of the greatest disadvantage and inconvenience, several rooms most resorted to by the Public being wholly inadequate to receive them, and scarcely nine feet in height; and it often occurs that many waggons loaded with goods, brought from vessels for examination, from the want of an inclosed area sufficiently large to receive them, are unavoidably left standing for the night in the street in front of the Custom-house.

An annual rent of about £. 900 is paid for the occupation of the Premises.

I annex to this Report a Plan showing the site, and the principal streets in connection with it, with an outline of the space which the New Building would occupy in the situation I proposed for it.

I recommend that the Building should stand upon that part of the Ground which lies between Pool-lane and the Docks; its front to the River would be about 170 feet in length, the fronts to the north and south each nearly 150 feet in length.

Upon this area, having a spacious Court within, the Establishment could be provided in a convenient manner with the Offices required, leaving next the north and south fronts a streetway of not less than between 70 and 80 feet wide, and the Dock-office and other Public Offices might be built with advantage upon the remaining part of the area.

The erection of a Custom-house upon so valuable and conspicuous a situation as this offered for it, and in a town distinguished by the character of its public buildings, and its extensive commercial establishments, must, I conceive, incur a larger expenditure than would be necessary under other circumstances, for I conclude that it would be thought proper to give to the exterior of each front a casing of stone. I am not prepared to state what would be the probable Expense of such a Building, as your instructions have not authorized me to make the Plans necessary for such a calculation; but with the information received upon the subject, I shall be enabled to do so whenever I shall be called upon for that purpose.

I remain, Sir, your very obedient servant,

(signed) *Robt Smirke.*

Copy Treasury Minute, 26th June 1827.

READ Report of the Commissioners of Customs of the 6th April 1826, upon a proposition from the Members of the Common Council and Trustees of the Docks at Liverpool, in regard to the erection of a Custom-house upon a site offered for that purpose by the said Corporation.

Mr. Canning states to the Board, that he has had a conference with a Deputation from the Corporation of Liverpool upon this subject, in which it has been proposed that the Building should contain accommodation not only for the Customs, but also for the Excise-office, Post-office and Stamp-office, together with an Office for the Trustees of the Docks, and for other purposes connected with the public business of the Town and Port of Liverpool.

For a Building of sufficient extent for these various purposes, the Corporation and Dock Trustees have offered such part of the site of the Old Dock in Liverpool as may be necessary for the erection of the Building in which the Public Offices are to be accommodated; and the Corporation have proposed to undertake the erection of it, to which their Lordships are ready to accede upon the following terms; viz.

That the Building shall be commenced as soon as the site in question shall be legally conveyed to Trustees, to be named by this Board, and as soon as the Plans, Elevation and Specifications of the proposed Buildings, prepared by the Architect of the Corporation of Liverpool (subject to such alterations as may be agreed upon), shall be approved by the proper Officer, to be named by this Board, for the examination of these Plans.

That the Corporation of Liverpool shall undertake to complete all the said Buildings in Six Years, to be reckoned from the day on which the site of the premises shall be conveyed to the Trustees to be named by this Board, according to the Plan, Elevations and Specifications to be approved of jointly by this Board and the Corporation of Liverpool; and that the Corporation shall further undertake to expend in the erection and completion of the same, a sum not less than the amount of the Estimate prepared by their Architect; viz. £. 175,000.

That in consideration of this Undertaking on the part of the Corporation, this Board shall engage to pay to the said Corporation the sum of £. 150,000 in the whole, by instalments, at a rate not exceeding £. 25,000 in any one of the six years, and that the difference between this Amount and the whole Estimate, and any exceeding (if there should be any) of the said Estimate, in completing the Buildings, &c. shall be borne by the Corporation, in consideration of the Estimate including the expenses of the erection of an Office for the Dock Trustees, and other objects immediately connected with the interests of the Town and Port of Liverpool.

That this Board shall be at liberty to appoint such Surveyor or other Officers as they may think proper to inspect the progress of the Works and Buildings, as well as the Accounts of the Expenditure incurred in the said Works and Buildings, so as to certify the same

same to this Board before the payment of the several instalments to the Corporation on account of this Undertaking.

That if any alteration be made in the Plans or Specifications by the desire of this Board, subsequently to the approval of them by My Lords, the Expense of those Alterations shall be borne by the Public.

That the Corporation shall further undertake to keep the whole of the Buildings in good and substantial repair for the first ten years after the completion, to be reckoned from the time of their being used or appropriated to the service of the Departments for which they are to be built.

My Lords are pleased to direct that their acceptance of this offer of part of the site of the Old Dock for the purposes, and subject to the conditions herein specified, may be signified to the Corporation, and desire that the Corporation may be requested to direct their Law Adviser to communicate with Mr. Maule, the Solicitor of this Board, in regard to the Conveyance to Trustees of the site upon which these Buildings are to be erected, as well as to the form of the agreement to be entered into between this Board and the Corporation for the erection of the Buildings in the manner and upon the terms proposed.

My Lords further desire, that the Plans, Elevations and Specifications of the proposed Buildings may be transmitted to this Board, in order that My Lords may communicate with the Heads of the several Public Departments for whose use the Buildings are intended, in regard to the accommodation required by them respectively.

Copy of Treasury Minute, dated 29th February 1828.

READ Report from the Commissioners of Excise, dated 19th February 1828, on one from the Commissioners of Customs, with the Plans, Elevations, &c. of a New Custom-house and Offices proposed to be built at Liverpool, wherein they state that the space set apart for the performance of the business of the Excise is ample, and the arrangements of the several rooms well adapted for their intended purpose; but that although the number of rooms is not greater than requisite, they are generally upon a larger scale than the actual or future wants of their establishment will probably appear to render necessary.

My Lords resume the consideration of the Report of the Commissioners of Customs of the 31st January last, upon the Plans and Elevations for the New Custom-house at Liverpool.

My Lords also read their Minute of the 26th June last, stating the terms upon which the Corporation of Liverpool undertook to erect this Building, and towards which this Board engaged to pay to the Corporation the sum of £.150,000 in the whole, by instalments, at a rate not exceeding £.25,000 per annum; and that the difference between this amount and the whole cost of the Building, (which was estimated at £.175,000), whatever that cost might be, should be paid by the Corporation; and Plans, Elevations and Specifications of the proposed Buildings were to be transmitted to this Board for their approval.

My Lords have now before them the following Plans, Elevations and Specifications, viz.:—

- No. 1. Basement Plan of the proposed Custom-house.
2. Ground Plan of ditto.
3. One Pair ditto.
4. Two Pair ditto.
5. North Elevation.
6. West ditto.
7. Longitudinal Section.
8. Transverse ditto.
9. Ditto, ditto.
- Plan of the Roof.
- View of the Custom-house.
- Section of ground up Pool-lane and Castle-street, Liverpool.
- Plan, showing the Site of the proposed Custom-house.
- Plan of the Docks and Public Buildings in the Neighbourhood.
- Plan of the Building under the proposed Custom-house.

As the extra expense of these Buildings beyond the sum of £.150,000 to be contributed thereto by the Public, is to be borne by the Corporation of Liverpool, under whose particular direction the Plans, Elevations and Specifications have been prepared, My Lords will not object to the extent of accommodation proposed to be granted to the Offices of the Customs and Excise, notwithstanding that accommodation is, in the opinion of the Commissioners of those Boards, more than is at present absolutely necessary for the conduct of the business of those Departments, and My Lords will therefore sign those Plans, Elevations and Specifications as approving thereof.

Transmit the said Plans, Elevations and Specifications to the Surveyor-General of Works for his inspection, and desire he will forward them to the Corporation of Liverpool without delay,

delay, and acquaint him that it has been agreed that the sum of £.150,000 should be contributed by the Public towards the expense of this Building, the Corporation of Liverpool having engaged to carry on the Works, and to defray the whole expense of the Building, which is estimated at £.175,000; which sum of £.150,000 is to be paid by the Public by annual instalments not exceeding £.25,000 in each year. With a view therefore of ensuring a due execution of this Work, according to the Plans, Elevations and Specifications, My Lords desire he will from time to time appoint a proper officer of his department to inspect the progress of the Works and Buildings, and the accounts of the Expenditure, as it is their Lordships' intention that the annual issues to the Corporation should be made upon certificate from him, stating that the Works and Buildings have been proceeded with and carried on in a workmanlike manner, and that a sum exceeding by at least the sum of £.25,000 has been expended upon the Buildings, or is due to the tradesmen beyond the amount which may up to that date have been advanced to the Corporation by the Public.

Acquaint the Corporation of Liverpool that My Lords have been pleased to approve of the Plans, Elevations and Specifications of the proposed Buildings and they have directed the Surveyor-General of His Majesty's Works to forward the said Plans, &c. immediately to them, and acquaint them with the directions given to the Surveyor-General of Works for the inspection of those Works in progress, and with the nature of the certificate which he will be required to grant to enable them, the Corporation, to apply to this Board from time to time for the issue of the instalments to be paid by the Public.

Sir,

Office of Works, 4 March 1828.

£. 150,000.

I HAVE been honoured with the receipt of your letter dated the 29th ultimo, transmitting the Plans and Elevations for the new Custom-house and Public Offices at Liverpool, directing in what manner the sum of £.150,000 granted by His Majesty's Government for these Buildings is to be appropriated and accounted for. In answer to which, I take the liberty of observing, for the consideration of the Lords Commissioners of His Majesty's Treasury, that, in my humble opinion, it would be more satisfactory were the Architect employed upon this occasion to send up Certificates previously to any payment being made on account of these Works, specifying the Value of the Work executed up to the period of the Account, and stating that the Works so done had been executed with the best materials, in the most substantial and workmanlike manner, and in strict conformity to the Plans approved of by their Lordships for these Buildings; and which Certificates, in addition to the signature of the Architect, should also have the approval and signature of the Mayor of Liverpool for the time being; and it might also be advisable that this Certificate should state the period to which the tradesmen employed on the Works had been paid.

I beg leave further to suggest for their Lordships' consideration, whether it would not be satisfactory upon this occasion to have the Specifications and all Drawings showing the construction of these Buildings submitted for the previous examination and report of the Architects attached to this Office, as is the practice in regard to all the churches and chapels erected under the Church Commissioners.

Under the circumstances in which the Buildings in question are to be executed, it would not be possible for me to give any Certificate in respect to the goodness of materials or workmanship, and for which the Architect is considered as exclusively answerable, and who, in my humble opinion, it would be dangerous to relieve from so essential a part of his duty.

Geo. R. Dawson, esq.
&c. &c. &c.

I have the honour to be, Sir,

Your most obedient servant,

Copy of Treasury Minute, dated 13 March 1828.

READ Letter from the Surveyor-General of Works, dated 4th March 1828, respecting the application of the sum of £.150,000 granted by His Majesty's Government towards building the new Custom-house and Public Offices at Liverpool, wherein he states his opinion that it would be more satisfactory were the Architect employed upon this occasion to send up Certificates previously to any payment being made on account of these Works, specifying the Value of the Works executed up to the period of the Account, and stating that the Works so done had been executed with the best materials, in the most substantial and workmanlike manner, and in strict conformity to the Plans approved of by their Lordships, and which Certificates, in addition to the signature of the Architect, should also have the approval and signature of the Mayor of Liverpool for the time being; and it might also be advisable that this Certificate should state the period to which the Tradesmen employed on the Works had been paid; and further submits, that the Specifications and all Drawings showing the construction of these Buildings should be submitted for the previous examination and report of the Architects attached to his Office.

My

My Lords read the Minute of the 29 ultimo respecting the erection of the new Custom-house, Excise-office, &c. at Liverpool, and the manner in which it was proposed that the Certificates should be granted previously to the issue of the Money proposed to be contributed towards this Building by the Public.

Transmit to the Mayor of Liverpool a copy of the letter of the Surveyor-General of Works for his information, and acquaint him, that in lieu of the Certificate described in the letter of this Board of the 29th ultimo, My Lords request that the Certificate to be transmitted to this Board for the purpose of obtaining the issue of the Money to be contributed by the Public towards this Building, may be in the form described by the Surveyor-General of Works. My Lords further request, that the Specifications and Drawings showing the construction of the Buildings may be transmitted to the Surveyor-General of Works for the examination and report of the Architects attached to the Office of Works.

Acquaint the Surveyor-General of Works with the directions My Lords have given.

My Lords,

Town Hall, Liverpool, 24th Nov. 1830.

IN accordance with your Lordships' Minute of the 21st March 1828, directing the grant of 150,000*l.* towards the erection of a New Custom-house, and other Public Offices at Liverpool, the payments to be made by Instalments of £.25,000 each, upon the production, by the Architect, of the Accounts, showing the Amount actually expended in the construction of the Works, according to the Plans approved by your Lordships, I have the honour to acquaint your Lordships, that I have authorized Mr. Foster, the bearer of this Letter, and Architect to the Corporation of this Town, and under whose direction the Building is executing, to proceed to London to submit the Accounts to your Lordships, and afford such other explanations as your Lordships may require; and I have to request, that on the deposit of these Accounts with your Lordships, you will be pleased to cause directions to be given for the issuing of the first Instalment of £.25,000, which, by the tenor of the aforesaid Minute, is now due to the Corporation.

I have the honour to be, my Lords,

Your Lordships' obedient humble servant,

(signed) *Thos. Bruncker*, Mayor.

To the Right honourable the Lords Commissioners
of His Majesty's Treasury.

Copy of Treasury Minute, dated 30th November 1830.

READ Letter from the Mayor of Liverpool, dated 24th instant, requesting that directions may be given for the Issue of the sum of £.25,000, being the first Instalment on the Sum granted towards the Erection of a New Custom-house, &c. at Liverpool, and enclosing the Accounts of Mr. Foster, the Architect, under whose direction the Building is executing.

My Lords read their Minutes of 29th February and 28th March 1828, on this subject.

Write to Mr. Foster, the Architect to the Corporation of Liverpool, desiring him to call upon the Surveyor-General of Works, who is instructed to receive from him any explanation he may have to afford respecting the Works at the Custom-house at Liverpool, and the Accounts for the same transmitted by the Mayor of Liverpool.

Write to the Surveyor-General of Works, transmitting to him the Letter from the Mayor of Liverpool, and the Accounts enclosed, and desire that he will confer with Mr. Foster, and report to My Lords any observations he may have to offer on this Account.

Sir,

Office of Works, 6th December 1830.

I HAVE been honoured with the receipt of your Letter of the 3d instant, transmitting, for any observations I may have to make thereon, a Letter from the Mayor and Corporation of Liverpool, with an Account of the Sums they have actually paid for six quarters of a year, from 1st May 1829 to 31st October 1830, amounting to £.56,319. 19*s.* 5*d.*, towards erecting a New Custom-house in that City, and upon which they pray an Issue of £.25,000, being the Amount of the first Instalment upon the Sum granted by the Lords Commissioners of His Majesty's Treasury towards defraying the expenses of this Building.

In consequence of the above reference, I have had a Conference with Mr. Foster, the Architect employed upon this occasion, and have had an examination made of his Accounts, and of the several Contracts and Vouchers which he produced in support of the same, and which appear to be satisfactory. I have also carefully compared this Account with their

Lordships' Minute of the 29th of February 1828, and their Letter dated the 21st March 1828, relative to the expenses and other matters connected with the Erection of this Building; and I beg to state, for their Lordships' information, that in my humble opinion, from the above Account and Documents, it appears that the Mayor and Corporation of Liverpool have complied with the several directions and stipulations contained in the Minute and Letter before alluded to, and are therefore fairly entitled to receive an issue of £.25,000, being the Amount of the first Instalment upon the Sum of £.150,000 which the Board of Treasury engaged to pay towards the expenses of building the New Custom-house in the city of Liverpool. I return herewith the Account and Documents received with your Letter of the 3d instant,

£. 25,000.

MISCELLANEOUS
SERVICES:

FOR THE YEAR
1831.

*Ordered, by The House of Commons, to be Printed,

SUPPLEMENT to CLASS I.—MISCELLANEOUS ESTIMATES.
1831.

SUPPLEMENTARY ESTIMATE of the further Sum that will be required in the
Year 1831, on account of the New Buildings at the BRITISH MUSEUM.

Four Thousand Pounds ;
Clear of Fees, and all other Deductions.

IN the Estimate presented on 10th March, it was stated that the grant of £.8,000. for 1831 would leave £.30,382. to be provided hereafter.

If this proposed additional vote of £.4,000. be made for 1831, the amount which will be required in future years will be reduced to £.26,382.

To the Right Honourable the LORDS COMMISSIONERS of His Majesty's TREASURY.

MY LORDS,

British Museum, March 16, 1831.

THE Trustees of the British Museum having had under their consideration a Copy of the Treasury Letter of the 8th of February, addressed to the Surveyor General, direct me to represent to your Lordships, that the sum of £.8,000. proposed by your Lordships as the grant for carrying on the Buildings at the Museum in the present year, will not be sufficient, according to a Report which the Trustees have received from their Architect, to defray the expense of completing the New Gallery for the Athenian Marbles, and of removing and refixing the Marbles there.

The Trustees beg to remind your Lordships, that the Building in which the Marbles are at present placed was erected in the year 1816, and was intended as nothing more than a temporary shed in which the Marbles might be exhibited, until a more suitable room could be raised for their reception ; that this Building has already continued for twice the number of years for which its durability was calculated ; and that, notwithstanding various precautions of external and internal props, which have been added from time to time, the Trustees have been for several winters apprehensive for the stability of the Building and the safety of the Sculptures which it contains.

The Trustees are fully aware of the exigencies of the public service, which have induced your Lordships to propose so limited a grant as £.8,000. for the Buildings at the Museum ; but, under the urgent circumstances of the case, the Trustees would feel it a dereliction of their duty to the nation, if they did not earnestly press upon your Lordships the absolute necessity of providing, without delay, for the safe preservation of the incomparable works of ancient art which the liberality of Parliament has committed to their care.

From the Report of Mr. Smirke, the Trustees understand that the sum of £.12,000. will be requisite in the present year to finish the Gallery intended for the Athenian Marbles, and to provide such articles of furniture as are indispensably necessary to enable the Trustees to exhibit their other Collections in a proper manner to the Public.

The Trustees therefore do not doubt that your Lordships will be pleased to add £.4,000. to the grant which your Lordships had proposed to submit to Parliament on account of the new Buildings at the British Museum.

I have the honour to be,

MY LORDS,

Your Lordships' most obedient humble Servant,

J. Forshall, Secretary.

COPY of TREASURY MINUTE on the foregoing Application.

22d March 1831.—UNDER the circumstances set forth by the Trustees of the British Museum, My Lords will not think themselves justified in withholding their recommendation to this proposed addition to the grant for these Buildings ; and they therefore desire that a Supplementary Estimate for £.4,000. for the Buildings at the British Museum may be prepared and laid before The House of Commons, accompanied by the representation of the Trustees, as the ground for proposing it to Parliament.

Acquaint the Trustees of the British Museum, and the Surveyor General of the Office of Works.

COPY of TREASURY MINUTE, dated 11th February 1831.

MY Lords have before them a Statement of Saint Domingo Sequestration Claims, and also a Statement and General List of Balances unpaid on the Martinique Regie Accounts.

My Lords resume the consideration of Mr. Martin's Letter of 17th December, applying for an Imprest of £.5,000, to enable him to proceed in the liquidation of admitted Claims for Property sequestered by the British Government in Saint Domingo, and on the Regie Fund of Martinique.

My Lords resume also the consideration of Mr. Martin's Letter of the 8th ultimo, containing a Statement of the Balance of his Accounts.

My Lords have before them a Statement of the Funds which have been already issued to Mr. Martin for the settlement of these Claims, which is as follows:

MARTINIQUE.

The following sums were paid to Mr. Martin by Mr. Harrison, pursuant to the directions of the Lords of the Treasury, out of money in his hands arisen from remittances for surplus of Crown Revenues in Surinam, Saint Croix, &c.; proceeds of Sale of Chariab Lands in Saint Vincent's; also from Forfeited Estates, Grenada, &c.;—namely,

Considering the long period which has elapsed since the sequestration of the property in question in the Islands of Saint Domingo and Martinique, and the length of time during which these Claims have been under consideration; my Lords are of opinion, that the settlement of them ought to be forthwith concluded, upon such vouchers and materials as the Claimants may have already placed in the hands of Mr. Martin; and with that view, my Lords are pleased to desire, that Lord Nugent and Mr. Vernon Smith will form a Committee of the Board for the purpose of considering the unsettled Claims, and report to the Board their opinion on each, with a view to an immediate final decision on them; and my Lords are pleased to desire Mr. Martin to attend Lord Nugent and Mr. Vernon Smith with the papers and documents in his possession, to enable them to come to a decision on each unsettled Claim; and my Lords are pleased to direct, that the expense of Mr. Martin's Salary and Allowance for a Clerk may cease from the 5th April 1831.

My Lords have also before them a Statement of the Salary and Allowances to Mr. Martin, in respect of annual Allowances to Saint Domingo Sufferers and Dutch Officers.

Mr. Martin's annual Salary	-	-	-	-	£. 650	-	-
Allowance for a Clerk (David Martin), at the } rate of 5s. a day per annum	-	-	-	-	91	5	-
Allowance for an Office-keeper, per annum	-	-	-	-	30	-	-
					£. 771	5	-

The Estimate for this Service for the Year 1830, states the number and amount of these Allowances to be as follows :—

Sixteen individuals entitled to receive annual allowances, amounting to £. 1,420.

By this Statement it appears, that, out of the Grant of Parliament, amounting to £. 2,197. 10. for the Pensions of Dutch Naval Officers and St. Domingo Sufferers, £. 1,420 only is applied to those Payments, the number of Pensioners being only sixteen; and the remaining sum of £. 771. 5. is expended in Salary to Mr. Martin, and allowance for a Clerk and Office-keeper. My Lords are of opinion, that this unnecessary expense of £. 771. 5. ought forthwith to cease, and a Vote for £. 1,420 only should be taken for the payment of these Pensioners in the Estimate of this Session.

My Lords are further pleased to direct, that the Dutch Naval Officers and St. Domingo Sufferers should in future receive their Pensions from Mr. Thomas Crafer, who is in the receipt of an allowance as Paymaster of Pensions and Allowances to American Loyalists, and who may properly be employed in paying these Pensions also.

Acquaint Mr. Martin accordingly, and desire he will hand over to Mr. Thomas Crafer the Documents in his possession relating to these Pensions. By this arrangement, the Public will save the annual sum of £. 436. 17. 6. on account of the expenses of settling the St. Domingo and Martinique Claims, and also the annual sum of £. 771. 5. on account of the Pensions above named, making in the whole an immediate annual saving of £. 1,208. 2. 6. As Mr. Martin's employment in the public service will be thus concluded, whenever the Committee of this Board shall have no further occasion for his attendance, my Lords proceed to consider a Statement of his services under Government, which Mr. Stewart lays before them. My Lords are of opinion that services of this nature are not such as entitle Mr. Martin to any Pension or Retired Allowance on their being discontinued; but as it appears that Mr. Martin has been employed above thirty years by Government, and has faithfully discharged the duties confided to him, and is at a very advanced period of life, My Lords are of opinion, that it would not be proper to deprive him of his two salaries, amounting to £. 950 per annum, without granting him a gratuity; and My Lords will recommend to Parliament, that a gratuity equal to two years' salary should be paid to him, one moiety to be provided for in the Estimates of this Session, and the other moiety in the Estimates for 1832. But My Lords desire that Mr. Martin will distinctly understand, that he is to render his assistance to the Committee of this Board in settling these Claims without any other remuneration than the gratuity above named.

COPY of TREASURY MINUTE, dated 8th March 1831.

MY Lords have under their consideration the Estimate submitted by Mr. Howard, of the Amount which will probably be required during the Year 1831, to defray the Charge for Pensions to the Toulonese and Corsican Emigrants who receive allowances from this country.

The amount of this Expenditure, exclusive of the Charge for making the Payments, and preparing the Accounts for examination by the Commissioners of Audit, is £. 9,700, the Pensioners now living being 155; the expense of paying these Pensioners, which is £. 920, appears to my Lords to be much greater than is necessary for the purpose, and their Lordships are of opinion, that the duty may be satisfactorily performed at a much less charge to the Public. They think that the best mode of providing for the discharge of it in future will be, to direct that, for the payment of the Pensions now existing, an allowance of £. 100 a year to Mr. Howard, with a further allowance of £. 50 a year for a Clerk to assist him, which will be a sufficient remuneration.

By such an arrangement as this, the duty would be equally well performed, and a saving would arise of £. 770 per annum.

Let the necessary communication be made therefore to Mr. Howard.

Let the Estimate for this Expense contain a provision for paying £. 150 for making the payments and rendering the Accounts, instead of the sum of £. 920, now included therein for that purpose.

LETTER from the Right honourable C. M. Sutton to T. Spring, Rice, Esq. &c. &c. &c.

SIR,

Mistley Hall, Manningtree, January 8, 1831.

I HAD this morning the honour of receiving your Letter of the 6th instant, communicating to me that the Lords Commissioners of His Majesty's Treasury (having had under their consideration the Bills of Messrs. Hansard & Sons for Printing for The House of Commons) are desirous to learn whether I see any objection to their Lordships' causing an examination to be made, under their authority, with a view of ascertaining whether any and what saving can properly be made without detriment to the Public service; and bearing in mind also the great importance of securing to the Members of The House of Commons a correct and rapid delivery of the various Papers ordered to be printed, upon the most economical terms to the Public of which such service is susceptible. I beg in reply to state, that I see no objection to their Lordships' proposal; and further to assure you for myself, and on the part of those Officers of The House of Commons more conversant with the minutest details of this business than I am, the greatest readiness to offer every assistance and facility in forwarding the examination.

It is unnecessary, I am persuaded, to guard their Lordships or you against the immoderate expectations of saving entertained by some persons with whom I have had communications on this subject; and although whatever can be retrenched in so large an expenditure ought to be retrenched, I much fear the enormous and increasing demand in The House of Commons for Printed Papers, the correctness of such prints so absolutely essential, the rapidity of delivery almost as essential, and the fitting quality of type and paper to be used, will, all combined, leave but a small field for the operation of retrenchment. In whatever way, however, I can be useful, my services shall be at their Lordships' command. I have the honour to be, &c.

(signed) C. Manners Sutton.

Copy of TREASURY MINUTE, of 25th January 1831.

MY LORDS have under their consideration the letter of The Speaker of The House of Commons, of the 8th instant, in reply to the letter of the Board, communicating to him their Lordships' desire to make an inquiry into the subject of Printing and supply of Papers for The House of Commons, in order to ascertain whether some reduction might not be made in this heavy branch of the Public Expenditure.

In this letter The Speaker states that he sees no objection to their Lordships' proposal, and assures My Lords for himself, and on the part of those Officers of The House more conversant with the minutest details of the business than he is, the greatest readiness to offer every assistance and facility in forwarding the examination.

The Speaker states, at the same time, that he is persuaded that it is unnecessary to guard My Lords against the immoderate expectations of saving entertained by some persons with whom he has had communications on the subject; and that although whatever can be retrenched in so large an expenditure ought to be retrenched, he much fears that the enormous and increasing demands in The House of Commons for Printed Papers, the correctness of such prints so absolutely essential, the rapidity of delivery almost as essential, and the fitting quality of type and paper to be used, will, all combined, leave but a small field for the operation of retrenchment. He adds, that in whatever way he can be useful, his services shall be at My Lords' commands.

My Lords have at the same time before them the Returns called for from Messrs. Hansard & Sons, and the King's Printer, of the quantities of each description of Paper used in Printing for the Two Houses of Parliament during each of the last five years, and of the prices charged for each description of Paper per ream, accompanied by the suggestions which they respectively offer, as means whereby the Paper may probably be procured at a cheaper rate in future.

My Lords desire to confine the inquiry, at present, to the future supply of Paper, being quite aware that no alteration could be introduced at such a period of the Session, in the mode of printing and delivering the Papers to the Two Houses of Parliament, without great risk of interfering with the rapid despatch of the business which is absolutely essential. The manner in which this duty has hitherto been performed both by the King's Printer for The House of Lords, and by Messrs. Hansard for The House of Commons, has gained for them respectively, My Lords are quite aware, the full approbation of those persons under whose more immediate directions the service has been conducted; and My Lords have considerable doubts whether any alteration could be introduced without risk of interfering with the satisfactory mode in which the service is performed. My Lords however will express no final opinion upon the subject until they shall have made more full inquiries into it hereafter.

Their Lordships can have no doubt, however, of the advantage of directing an immediate inquiry into all that relates to the purchase of the Paper, because My Lords believe that the establishment of the Stationery Office may be made instrumental to the equally effective and more economical supply of it hereafter. They desire that the letter of The Speaker, and the Statements of the King's Printer and of Messrs. Hansard, accompanied by the specimens of Paper supplied by them respectively, may be forthwith transmitted to the Comptroller of the Stationery Office, and that he may be directed to lose no time in considering the subject, and reporting to My Lords whether any and what better and more economical arrangement can be made for procuring these large supplies of Paper, bearing in mind always the great public disadvantage which would result from any failure in the supply; My Lords considering it to be their indispensable duty to effect all practicable reductions in every branch of the Public Expenditure.

My Lords further desire that the Comptroller of the Stationery Office will put himself in communication with the King's Printer, and with Messrs. Hansard, for the purpose of procuring from them all the additional information which he may require to enable him to report to My Lords.

When this Report shall be before My Lords, they will again communicate with The Speaker.

Transmit copy of this Minute to the Comptroller of the Stationery Office, for his information and guidance.

LETTER from J. Church, Esq. to Thomas Hoblyn, Esq. &c. &c. &c.

SIR,

Stationery Office, 3d February 1831.

I BEG leave to acknowledge the receipt of your Letter of the 28th of January, transmitting a Copy of a Treasury Minute of the 25th ult. together with a Letter from The Speaker, on the subject of the inquiry into the Printing of The House of Commons, and accompanied by Statements from the King's Printers and from Messrs. Hansard, of the quantities and prices of the Papers used by them respectively each year, as Printers

to the Two Houses of Parliament; and desiring me to lose no time in considering and reporting to their Lordships, whether any and what better and more economical arrangement can be made for procuring these large supplies of paper, and whether this Office might not be made instrumental to this purpose; and further desiring me to place myself in communication with the King's Printers, and with Messrs. Hansard, for the purpose of procuring from them such further information as may be required.

In obedience to those directions, I have the honour to submit to the Lords Commissioners of His Majesty's Treasury, that, being fully aware of the great confusion in which the public business would be involved, in the event of any failure in the supplies of paper to the Parliamentary Printers, whether in quantity, quality or punctuality in its delivery; and being aware also (if their Lordships should see fit to transfer the duty of furnishing these Papers to this Office) of the responsibility which I should personally incur if any inconvenience should arise from the want of proper precaution on my part, I have considered the subject with as much care and attention as I am capable of giving it.

For the purpose of bringing the prices of the King's Printer and of Messrs. Hansard into comparison with those of this Office, I have reduced them into a Table form, having a reference to the quantities and description of Paper supplied by each of these gentlemen in the year. But as it appears from their Returns to the Treasury (which include the supplies of five years) that they have gradually reduced their charges for Paper year after year, from 1826 to 1830, both inclusive, the Table I have formed applies only to the year of their lowest prices, viz. those of the last year.

This Table will, I trust, bring the subject so clearly to their Lordships' view, that it is not necessary for me to explain its construction, further than to say, that the Stationery Office prices are *not* the prices at which these Papers could be procured by public competition; because these Papers are for the most part of a special description, and have not been in sufficient demand at this Office to have been the object of an open Contract.

The prices therefore which I have stated, are those at which they could be procured by private Contract. I can, however, assure their Lordships with perfect confidence, that if it were thought expedient to purchase these Papers by public competition, any deviation from these prices would be on the side of reduction; unless, which cannot be foreseen, a general increase of prices should take place in the market.

I must also take the liberty to observe, that it is too late to effect any change in the present system of purchasing for the service of this Session. The great majority of the Papers must be specially made for the purposes for which they are wanted, which would require a preparation of some months; and there can be no doubt that the Printers have already provided themselves with what will be required for this year.

The most convenient time for making Contracts for Paper is in May, in order to give the Manufacturer the advantage of fine weather; and by increasing the quantity of Papers already to be contracted for at that period, by the quantity which will be required for the Two Houses, the demand for Paper throughout the country remaining the same, it is very probable that the increased competition produced by the transfer, would have a favourable effect upon the prices of *all* the Papers purchased for the public service.

If their Lordships should think the humble opinion I have offered worthy of their further consideration, I must venture to impress upon their attention the absolute necessity of mutual co-operation and good feeling between the Parliamentary Printers and this Department: mistakes and omissions must arise on one side from inexperience and from the hurry of business; and unless they are met by a willingness on the other to assist and inform, I am persuaded that no efforts which I can use will prevent the occurrence of impediments to the public business for which any saving that can be effected will not be a compensation.

I have the honour to be, Sir, Your most obedient humble Servant,
(signed) J. Church, Comptroller.

Copy of TREASURY MINUTE, dated 11th February 1831.

READ Report of the Comptroller of the Stationery Office, dated 3d instant, on the subject of the Paper used in Printing for the Two Houses of Parliament being supplied through the Stationery Office.

My Lords observe with satisfaction, that in consequence of the inquiry directed by their Minute of the 25th ult. it appears from the Report of the Comptroller of the Stationery Office, that it may be practicable to effect, in the supply of Paper to the Printer of the House of Commons and to the King's Printer, a very considerable reduction in the charge upon the Public. By that Report it appears, that the supplies of Paper used in those Departments during the year 1830, amounted to a charge of £. 26,278. 6s., which might have been furnished by the Stationery Office at an expense of £. 20,466. 17s. 9d., making a difference of £. 5,811. 8s. 3d. for the benefit of the Public.

My Lords are desirous that this saving, bearing so considerable a proportion to the total Estimate, should be carried into effect with as little delay as is consistent with the expeditious and punctual discharge of the duties of the King's Printer and the Printer of the House of Commons, and they direct the Comptroller of the Stationery Office to take measures for obtaining, by open competition, the supply of the Paper requisite.

Direct the Comptroller further to communicate with Messrs. Eyre & Strahan and Messrs. Hansard, when he has received his supply of Paper, and to make with them such arrangements as may be necessary to carry this Minute into effect.

My Lords do not perceive that any inquiry has as yet been made by the Stationery Office with regard to the supply of Paper used in printing the Votes and the Appendix for the House of Commons; a branch of a subject of inquiry now depending before My Lords.

Direct the Comptroller to prosecute his examinations further, in order to ascertain whether a similar retrenchment may not be effected in that Department.

LETTER from J. Church, Esq. to the Hon. J. Stewart, &c. &c. &c.

Sir,

Stationery Office, 19th February 1831.

I HAVE received the honour of your Letter of the 14th instant, on the subject of the Papers used in Printing for the Two Houses of Parliament, and directing me, by the command of The Lords Commissioners of His Majesty's Treasury, to take measures for obtaining, by open competition, the annual supply which may be necessary for this purpose.

I beg leave also to acquaint you, for the information of their Lordships, that I have procured from Mr. Nichols, the Printer of the Votes, a Return of the quantities and description of Paper used by him each Session in printing the Votes; and their Lordships will observe from the Statement annexed, that a retrenchment would be effected to the amount of £. 277. per annum, by procuring the supply through the Stationery Office.

I have the honour to be, Sir,

Your most obedient humble servant,

(signed)

J. Church, Comptroller.

Copy of TREASURY MINUTE, dated 22d February 1831.

READ a Letter from the Comptroller of the Stationery Office, dated 19th instant, acknowledging the receipt of the letter from this Board of 14th instant, on the subject of the Paper used in printing for the Two Houses of Parliament, and directing him to take measures for obtaining, by open competition, the annual supply which may be necessary for this purpose; and stating that he has procured from Mr. Nichols, the Printer of the Votes, a Return of the quantities and description of Paper used by him each Session in printing the Votes, by which it appears that a retrenchment would be effected to the amount of £.277. per annum, by procuring the supply through the Stationery Office.

My Lords resume the consideration of the former Report of the Comptroller of the Stationery Office, of 3d February, on the supply of Paper required for Printing for the Two Houses of Parliament, and read their Minute of 11th February thereupon.

Write to the Comptroller of the Stationery Office, and acquaint him that it is the desire of this Board, he should supply all the Paper required for Printing the Votes of the House of Commons, in the same manner as he has been directed to procure and supply the Paper required for Printing for the Two Houses of Parliament by the King's Printer and by Messrs. Hansard.

Write also to The Speaker of the House of Commons, with reference to the former communication which My Lords have had with him upon this subject, and acquaint him that as My Lords have found that the supply of Paper may be made to Messrs. Hansard & Sons and to Mr. Nichols for Printing for the House of Commons through the Stationery Office, without the risk of any failure in the supplies, either in quality, quantity or punctuality of delivery, and at a saving upon the quantities supplied and prices charged last year by the Printers, of more than £.5,000.; their Lordships have determined to direct that the supplies should be furnished through the Stationery Office in future.

State, that on the commencement of this new system, it may be of great importance that the Printers should give every aid and assistance to the Stationery Office, and that their Lordships therefore request he will instruct Messrs. Hansard & Sons and Mr. Nichols, to afford every information and assistance to the Comptroller of the Stationery Office which he may require.

Write to the King's Printer and state, that as My Lords have determined that the Paper required by the Printers of the Two Houses of Parliament shall be supplied for the future, after the termination of the present Session, through the Stationery Office they desire that they will afford to the Comptroller of the Stationery Office every information and assistance in their power, to enable him to fulfil, in the most satisfactory manner, the orders which My Lords have given to him on the subject.

Acquaint the Comptroller of the Stationery Office.

LETTER from *J. Church, Esq. to T. Spring Rice, Esq. &c. &c. &c.*

SIR,

Stationery Office, 22d February 1831.

I HAVE the honour to enclose the Estimate of the probable Amount that will be required to defray the Charge, in the year 1831, for Printing, Binding and Stationery, for the several Public Departments in England and Ireland, together with the expenses of the Establishment of the Stationery Office.

In submitting this Estimate to the consideration of the Lords Commissioners of His Majesty's Treasury, I take leave to observe, that the Amount assumed to be required for each of the English Offices is computed upon the average of the actual consumption of such Office during the last three years.

	£.	s.	d.
Their Lordships will see, that the amount of the Estimate of the present year, exclusive of the expenses of management, is - - - - -	91,055	-	-
While that of the preceding year was only - - - - -	90,290	-	-
Making an excess in the present year of - - - - -	765	-	-

But

But as it is shown on the face of this Estimate—

1st. That an extraordinary expense will be incurred for the service of the <i>War Office</i> , for the paper and printing of the forms issued for the Militia Ballot, amounting to	1,500 - -
2dly. That Six Offices, which had previously been furnished with their Stationery through other channels, have, since the commencement of last year, been transferred to this Office, making an amount of	1,000 - -
And 3dly. That in addition to the sum of £.1,100. per annum, which is already paid at this Office for Acts of Parliament, supplied by the King's Printer to the Boards of Revenue and other offices, it has been directed by Treasury Minute, dated 25th ult ^o , that such Acts of Parliament as are furnished by the King's Printer to the Treasury and other offices of Government, and which have hitherto been paid for at the Treasury, shall hereafter be paid for by this Office, amounting, as appears by a Return from the King's Printer, to	900 - -
Their Lordships will perceive, that these new Heads of Service will cause an increase in the Expenditure of	3,400 - -
But as the increase of the Estimate, as above shown, is only	765 - -
The consumption of Stationery in such offices as appeared in the Estimate of last year, is reduced in that of the present to an extent of	2,635 - -

I will in this place take the liberty to state, for the further information of their Lordships, that the annual amount of Stationery, supplied through this Office, always exceeds the Estimate laid before Parliament, by upwards of £.25,000. Of this sum, the parchment and paper furnished by this Office to the Stamp Office, for the purposes of stamping, amounts to about £.20,000.; but as the consumer is charged with the value of the parchment and paper, in addition to the price of the stamp, the Receiver General repays the amount to the Stationery Office. The remaining £.5,000. arises from supplies made to the Civil List Offices and some others, having special Parliamentary Grants, to the Indian Board of Controul, and also to some of the Colonies, the amount of which is repaid by their respective agents. The annual amount, therefore, of the Stationery, to be issued for the Public Offices, exclusive of Ireland, will be £.116,055.

I have added to the Estimate, also, a list of the Irish Offices, which will be supplied with Stationery through this Department; but as some of these Offices have not yet made any Return at all of the Stationery which they will probably consume within the year, and as others, instead of making their Returns in quantity, have made them in amount, I am unable to submit to their Lordships any other than a general Estimate for Ireland.

It will be found, by documents now at the Treasury, that the annual amount of Stationery, upon an average of five years, ending 5th January 1830, furnished by Sir Abraham B. King, to the offices specified in the Estimate, was

To which must be added the amount, consumed by a department of the General Post Office, supplied by another stationer	£. 22,045 - -
Making the annual expense of Stationery under the former system	1,600 - -
Upon the best calculation which I have been able to make, keeping in view the reduction which will be effected in the prices of stores supplied, as well as a reduction, both in quantity and quality, as far as may be practicable, I trust that the Grant, which will be required for this service, will not exceed	23,645 - -
	12,000 - -

In consequence also of their Lordships' directions of the 14th instant, that I should take measures for obtaining, by open competition, the supply of Paper which will be required for the printing purposes of the Two Houses of Parliament, and which has hitherto been furnished by their respective Printers it will be requisite that I should be furnished with the necessary funds in order to carry these directions into effect for the Session of 1832. No advances on this account will be required before the month of November; but as all the Papers must be made and delivered to this Office before the commencement of the Session, their Lordships will see the necessity of providing for their payment in the present Estimate.

I have further been directed to report to their Lordships whether any arrangement can be made for the more economical provision and consumption of Stationery in future.

I beg leave to assure you, that if I were aware of any mode of procuring the public stores, which was likely to be more economical than the present one, I should feel it my duty immediately to submit it to their Lordships' consideration. With respect to a more economical consumption, their Lordships are aware that that must depend more upon the vigilance which may be used by the heads of the different Departments, than upon any efforts which I have the power to make.

I have the honour to be, Sir,

Your most obedient humble servant,

J. Church, Comptroller.

LETTER from *R. W. Hay*, Esq. to the Honourable *J. K. Stewart*,
&c. &c. &c.

SIR,

Downing-street, 9th April 1829.

I am directed by Secretary Sir George Murray to communicate to you, for the information of the Lords Commissioners of His Majesty's Treasury, the following statement of facts respecting the case of two persons named *Louis Celeste Lescene* and *John Escoffery*.

These men resided for many years in the Island of Jamaica. In the month of October 1823, they were arrested and committed to the gaol of Kingston, in Jamaica, as aliens and persons of a dangerous description, in pursuance of an order issued by his Grace the Duke of Manchester, the Governor of the Island. His Grace intended to avail himself of the earliest opportunity for removing them from Jamaica, under the provisions of the Alien Act of that Colony, and the commitment was preliminary to that further measure.

An application was made to the Supreme Court of Jamaica, for writs of *habeas corpus* to bring up the bodies of *Lescene* and *Escoffery*, and the Court ordered that such writs should issue, unless good cause could be shown to the contrary. After hearing the Attorney General of the Island in opposition to this application, the writs were issued on the 25th of October 1823, and on the same day *Lescene* and *Escoffery* were discharged. It is stated, and appears to be the fact, that at the time of making this order the Chief Justice declared that it would still be competent to the Governor to remove these persons by his own authority, if satisfactory proof of their foreign birth should be obtained.

On the 26th of November 1823, a Secret Committee of the House of Assembly of Jamaica reported to the House, that *Lescene* and *Escoffery* were "Natives of St. Domingo, and persons of a most dangerous description to remain in the Colony." The House agreed to this Report, and sent a copy of it to the Governor. By the Governor the Report was referred to the Council, and they unanimously reported their opinion, that *Lescene* and *Escoffery* should "be sent off the Island forthwith." They were accordingly carried to the Island of St. Domingo, in pursuance of a warrant from the Governor, addressed to the Provost Marshal.

In the year 1824, a motion was made in the House of Commons for copies of all the proceedings in this case.

In

In the year 1825, the Returns having been laid before Parliament, a motion was made for the appointment of a Select Committee to inquire into the case. It was, however, agreed that the investigation should be conducted by the Commissioners of Legal Inquiry, who were then in the West Indies.

In the beginning of the year 1826, the Commissioners accordingly entered upon the proposed inquiry; and on the 20th of February in that year they made their Report to the Secretary of State. They stated their opinion, first, that Lescene and Escoffery were aliens; and, secondly, that there was sufficient reason to impute to each of them conduct and designs prejudicial to the peace of the Island.

This Report was communicated to Dr. Lushington, the Member of the House of Commons at whose motion the proceedings in Parliament had been adopted. Dr. Lushington, after perusing the Report and Evidence, charged the Commissioners with having conducted the inquiry in an unfair and partial manner, and undertook to prove that they had drawn erroneous conclusions from the evidence they had collected. At his suggestion, the Papers were laid before Mr. Courtenay, who consented to investigate the subject in concurrence with Dr. Lushington, in order to ascertain how far the imputations against the Commissioners were well founded.

On the 6th of December 1826, Mr. Courtenay addressed a Letter to the Secretary of State, in which he expressed his entire concurrence in the opinion of Dr. Lushington, that the conclusions of the Commissioners were contradicted by the evidence before them, and that Lescene and Escoffery were born in the island of Jamaica, and had conducted themselves in a peaceable and inoffensive manner; Dr. Lushington at the same time transmitted the Copy of a Letter addressed by himself to Mr. Courtenay, explaining at length the grounds of their common opinion on the subject.

The Letters of Mr. Courtenay and Dr. Lushington having been shown to the Commissioners, they made a reply vindicating their Report.

At this stage of the controversy, it was thought right to refer the question to the decision of some person to be selected by the contending parties. Accordingly it was agreed by Dr. Lushington on the part of Lescene and Escoffery, and by Mr. Hinchcliffe on behalf of his Grace the Duke of Manchester, that Sir John Richardson, lately one of the Judges of the Court of Common Pleas, should be the Referee for the decision of the questions in dispute. This nomination having been approved by the Secretary of State, Sir John Richardson, at his desire, undertook the investigation of the case.

After a few weeks had elapsed, Sir John Richardson returned all the Papers to this Office, being disabled by the state of his health from completing the task he had undertaken. He however recommended Mr. Serjeant Bosanquet as a proper person to be employed on this occasion; and Mr. Serjeant Bosanquet having been approved as a Referee by Dr. Lushington on the side, and by the agent of the Duke of Manchester on the other, undertook the inquiry.

On the 5th November 1827, Mr. Serjeant Bosanquet made a Report to this following effect:—He stated that it appeared to him unnecessary to inquire whether Lescene and Escoffery were born in Jamaica or in St. Domingo, because, even on the hypothesis of their having been born in St. Domingo, they were natural born subjects of the King of Great Britain; it appearing by the Evidence, that the places of their birth were at that time in the occupation of His Majesty's forces, and they having on the evacuation of those places by the British troops, repaired to Jamaica, where they had ever since resided.

The consequence of this Report, if accurate in point of law, was to establish the title of these persons to the character of British subjects, and consequently to show that their removal as aliens was an illegal act. As the establishment of these points of law would entitle Lescene and Escoffery to compensation for their losses, it was thought right to refer to the then law officers of the Crown, Sir James Scarlett and the present Solicitor General, the consideration of the question how far the opinion of Mr. Serjeant Bosanquet was well founded in point of law.

On the 24th January 1828, the Attorney and Solicitor General reported to the Secretary of State their opinion, that, under the circumstances of the case, Lescene and Escoffery, even if born in St. Domingo, were British subjects.

Shortly after the date of this Report, Mr. Burge, the Attorney General of Jamaica, arrived in this country. At an interview with Sir George Murray, he represented that the opinion of the law officers of the Crown was erroneous, in consequence of their not having been apprised of certain statutes of Jamaica, which in his judgment, entirely superseded those principles of common law upon which the opinions Mr. Serjeant Bosanquet and the Attorney and Solicitor General proceeded. Mr. Burge was desired to state the grounds of this opinion in writing.

After a considerable delay, Mr. Burge accordingly made a written statement of the grounds upon which, as he conceived a person born in St. Domingo must be regarded as an alien in Jamaica, even though the place of his birth had been occupied by the British forces. Mr. Burge further asserted that, in point of fact, the birth of Lescene and Escoffery did not follow, but preceded, the capture of the places of their birth by His Majesty's troops.

On the 2d day of October last the case was a second time referred to the law officers of the Crown, who were directed to report whether, having regard to Mr. Burge's statement, they adhered to their former Report, or found cause to correct it in any particular. After an interval of four months, they reported their opinion to the following effect; *viz.* That sup-
posing

posing Lescene and Escoffery to have been born in St. Domingo, *during* the occupation of the places of their birth by the British troops, they were British subjects; but that if born *before* such occupation of those places, they were aliens.

The controversy being now reduced to the question of the *time* of the birth of these persons, supposing them born in St. Domingo, Mr. Serjeant Bosanquet was desired to state whether he had fully investigated the evidence with reference to that point; and, if so, what was the result of it.

Mr. Serjeant Bosanquet accordingly reported to this office, that he had fully investigated the evidence before he made his first report, and that supposing Lescene and Escoffery to have been born in St. Domingo, he could draw no other conclusion than that they were born after the occupation of the places of their birth by the British troops.

Upon this opinion being communicated to Mr. Burge, that gentleman requested that the argument which he had written and printed, respecting the time of the birth of these persons, might be fully considered, because he was persuaded that the perusal of that argument would prove that Mr. Serjeant Bosanquet's conclusion was erroneous. Accordingly Mr. Serjeant Bosanquet was requested to revise his opinion, with reference to Mr. Burge's argument. He did so, and reported that he adhered to the opinion, that Lescene and Escoffery, if born in St. Domingo, were born after the British forces had taken possession of the places of their birth.

Such is the progress and the present state of this protracted controversy. By three distinct reports of Mr. Serjeant Bosanquet it is therefore established, that, in the opinion of that gentleman, the evidence proves that Lescene and Escoffery were born during the occupation of the places of their birth by the British troops. By two reports of the Law Officers of the Crown, it is established, that, assuming the fact to be as Mr. Serjeant Bosanquet understands it, Lescene and Escoffery are British subjects. If British subjects, they have been illegally removed from Jamaica. Whether the birth place of these men was really in St. Domingo or in Jamaica, has therefore become an immaterial inquiry. It is still maintained by themselves, by Mr. Courtenay, and by Dr. Lushington, that they were really born in Jamaica. Mr. Serjeant Bosanquet desires it to be understood, that he has expressed no opinion upon that point, but has reasoned, for the sake of argument, upon the assumption, that the evidence adduced against them is entirely uncontradicted.

Under these circumstances, the claim of Lescene and Escoffery to be compensated for the loss they have sustained by their removal from Jamaica, seems irresistible. It is perfectly clear that the Assembly of Jamaica will grant no compensation. The Duke of Manchester is personally responsible, and unless the Lords' Commissioners of the Treasury shall assume this charge, his Grace will be sued for the amount of the damage sustained. It must, under the circumstances already stated, be assumed, that such an action would be successful. But it appears that Lord Bathurst, whilst Secretary of State, distinctly exonerated his Grace from all blame for the course he had adopted, since he acted upon the concurrent opinions of the Council, the Assembly, the Attorney-General, and the Chief Justice of the Island. Sir George Murray entirely concurs in this opinion.

Under this impression it has been distinctly understood between this Department and the Agents for Lescene and Escoffery, that His Majesty's Government would indemnify the Duke of Manchester, and make good any loss which Lescene and Escoffery might prove themselves to have sustained, if they should succeed in establishing their title to the character of British subjects. Indeed, as this inquiry was directed in consequence of a Parliamentary proceeding, and was carried on by Commissioners appointed by His Majesty, this consequence would seem to have been inevitable.

It is understood that the demand of Lescene and Escoffery is very considerable. They are represented to have been traders at Kingston, in Jamaica, and to have carried on an extensive and lucrative business, which they state to have been utterly ruined by their abrupt removal.

I am to request that you would lay this Statement before the Lords Commissioners of His Majesty's Treasury, with the expression of Sir George Murray's opinion, that, under the circumstances of this case, measures ought immediately to be taken for ascertaining the real amount of the loss sustained by these persons by their illegal removal from Jamaica, and that provision ought to be made for indemnifying them against the amount of that loss.

I have, &c.

R. W. Hay.

COPY of the MINUTE of the LORDS of the TREASURY of 2d June 1829, on the foregoing Representation of the SECRETARY of STATE for the COLONIES.

WRITE to Mr. Hay, for the information of Secretary Sir George Murray, that a full consideration of the statement in his letter of the 9th April last, My Lords concur in opinion with Sir George Murray, that the deportation of Messrs. Lescene and Escoffery from Jamaica was illegal, and that they are entitled to Compensation for the loss they have consequently sustained. My Lords are also of opinion, that it would not be expedient to press on the Legislature of Jamaica the justice of such compensation being provided out of the Revenue of that Colony, and that it would be unjust to permit the Duke of Manchester to bear that burden, his Grace having acted in this matter in accordance with the opinions of the Council, the Assembly, the Attorney-General, and the Chief Justice of the Island.

My Lords therefore feel the necessity of providing the means of compensating these parties for such losses as they may prove they have necessarily sustained in consequence of their deportation; and My Lords will take their claims into further consideration when they shall have before them a statement of their losses, supported by such proof as will afford the means of determining on the justice of their demand, and they request the parties may be called upon to furnish a statement thereof accordingly.

LETTER from *George Maule, Esq.* to the Honourable *J. K. Stewart,*
&c. &c. &c.

SIR,

Lincoln's Inn, 1 July 1830.

WITH reference to your letter of the 4th August last, desiring me to refer the claims of Mr. Louis Celeste Lescene and Mr. John Escoffery to Mr. Selwyn, and to my letter of the 28th October last, acquainting you with the progress then made in the inquiry before Mr. Selwyn, and to Mr. Dawson's letter of the 16th November last, acquainting me that the account books of the Claimants ought to be produced for the elucidation of their claims as it regarded their respective trades, I beg leave to acquaint you, that on the arrival of these books from Jamaica, they were submitted to Mr. Selwyn, who resumed the inquiry and received evidence in explanation of them, and I have this day been favoured with his Report, which I take the liberty to inclose.

Mr. Selwyn has been engaged in this matter since the month of September last, and has held various meetings, for the purpose of examining witnesses, and documents of some extent and intricacy have been under his consideration in the course of this inquiry. For these services and for his Report I have humbly to submit to My Lords, that a fee of sixty guineas would be proper, and if My Lords should approve thereof, I have to request the favour of you to obtain directions for me to pay and charge the same in my accounts.

I am, &c.

(signed) *Geo. Maule.*

Exparte Louis Celeste Lescene and John Escoffery.

I HAVE been attended by the parties and their witnesses, upon the statement of their claims, and having considered the same, I think that Louis Celeste Lescene is entitled to the sum of £. 11,415. 14. 3. and that John Escoffery is entitled to the sum of £. 4,555. 18. 2. as a compensation for the losses sustained by them respectively, by reason of their deportation from the island of Jamaica; and in addition to the foregoing sums, I think a sum of £. 212. 13. 10. is due to Mr. W. Rothery, jun. of Doctors' Commons, for business done by him on behalf of the claimants, in copying documents and attendances respecting the said claims, and the sum of £. 100 to Mr. George Stephen, of King's Arms yard, Coleman street, Solicitor, for his charges in attending me in support of the said claim.

Wm Selwyn,

Serle Street, Lincoln's Inn.

July 1st, 1830.

Copy of the MINUTE of the LORDS of the TREASURY of 30th July 1830, on the Report of their Solicitor, transmitting the Award of Mr. Selwyn, to whom was referred the Claim of Mr. Lescene and Mr. Escoffery.

MY LORDS resume the consideration of all the former Papers on this subject, and read their Minutes of the 2d June, 28th July, 10th November, and 1st December 1829 thereon; by the last of which Minute My Lords directed the sum of £.1,000. to be paid out of Civil Contingencies to Dr. Lushington on account of these claims, which sum appears to have been applied towards the claim of Mr. Lescene. My Lords approve of Mr. Selwyn's Report according to which the sum due to Mr. Lescene amounts to £.11,415. 14. 3., and to Mr. Escoffery £.4,555. 18. 2.; also a sum of £.212. 13. 10. to Mr. Rothery, jun., and of £.100. to Mr. George Stephen, for their respective bills of costs in these proceedings.

Write to Mr. Lescene, acquainting him that My Lords have had under their consideration the Report of Mr. Selwyn, upon the subject of his claim to compensation for losses sustained by him by reason of his removal from the Island of Jamaica, and with reference to that Report, their Lordships will direct that a sum of £.10,415. 14. 3., in addition to £.1,000. already advanced on account, making a total of £.11,415. 14. 3. be paid to him in the following manner; viz. the sum of £.3,000. to be paid forthwith, and the residue on or before the 10th day of April next, the same to bear interest at 4 per cent. from this date, upon payment of which residue and interest, a receipt in full of all demands will be required of him.

Acquaint him also that My Lords will direct, with reference to the same Report, that a sum of £.212. 13. 10. be paid to Mr. Rothery, jun., and a sum of £.100. to Mr. George Stephen, for their respective bills of costs in these proceedings, and that these sums will be paid to him, and to Mr. Rothery and Mr. Stephen respectively, on application to Mr. Sargent at this Office.

Write to Mr. Escoffery, that My Lords have had under their consideration the Report of Mr. Selwyn upon the subject of his claim to compensation for losses sustained by him by reason of his removal from the Island of Jamaica, and with reference thereto My Lords will direct that a sum of £.4,555. 18. 2. be paid to him in the following manner: viz. the sum of £.1,000. to be paid forthwith, and the residue on or before the 10th day of April next, the same to bear interest at 4 per cent. from this date, upon payment of which residue and interest a receipt in full of all demands will be required of him, and that My Lords will direct the sum of £.1,000. to be paid to him on his application to Mr. Sargent, of this Office.

Transmit Copy of this Minute to Mr. Sargent, and direct him to pay out of monies in his hands, on account of Civil Contingencies, the said sums of £.3,000. and £.1,000. to Mr. Lescene and Mr. Escoffery respectively, on their receipt for the same as in part payment of the above-named several sums of £.11,415. 14. 3. and £.4,555. 18. 2.

Direct him further to pay to Mr. Rothery, jun. the sum of £.212. 13. 10., and to Mr. George Stephen the sum of £.100.

Transmit Copy of this Minute to the Solicitor.

AN ESTIMATE of the Sum required for the Purchase of the PENSION granted by his late Majesty King William the Third to *James Waller*; and re-granted by his late Majesty King George the Second to *Charles Hooper* and *Philip Martin*, and their Heirs.

One Thousand Eight Hundred and Forty-six Pounds Three Shillings;
Clear of Fees, and all other Deductions.

A COPY of the GRANT or PENSION, on the IRISH CIVIL LIST, to *Charles Hooper* and *P. Martin*, and their Representatives, specifying the Term for which it was granted, and the Conditions, if any, thereunto annexed; as also the Names of the Persons to whom this Pension is now payable.

GEORGE R.

RIGHT trusty and well-beloved Counsellor, We greet you well. Whereas Our late royal predecessor, King William the Third, by Letters under his Royal Sign Manual, bearing date the 17th day of April 1700, to the then Chief Governor or Governors of the Kingdom of Ireland directed, was pleased to order and appoint that a yearly Pension of Two Hundred Pounds should be paid unto *James Waller*, then Lieutenant-Governor of Charlesfort and Kinsale, in the said Kingdom, from the time and in manner therein-mentioned, until the sum of Two Thousand Pounds should be satisfied and paid him in one entire payment, which said sum of Two Thousand Pounds is therein set forth to have been expended in his said late Majesty's service, towards subsisting and transporting French prisoners during the then late rebellion there. And whereas We are given to understand that the said sum of Two Thousand Pounds hath not yet been paid, and that the Pension payable in respect thereof hath been received to the Twenty-fifth day of March, which was in the year of Our Lord One thousand seven hundred and fifteen, and no longer.

And whereas the Commissioners of Our Treasury here have laid before Us Our Letter of the Twenty-sixth of July last past, with a Report of Our Solicitor-General there, made on the Petition of *Charles Hooper*, of the city of London, and *Philip Martin*, widow and executrix of *John Martin*, Esquire, deceased, praying that the said Pension may be re-established again, and the arrears thereon paid; by which Report it (among other things) appears that the said Pension, after being so granted, was purchased for a valuable consideration, and the Petitioners' title is well derived to the same under the said purchase; but as the original charge thereof on the Revenue was created only by a Letter under his said late Majesty's Sign Manual, the Petitioners can have no relief but such as We, upon consideration of the circumstances of the case, shall of Our grace and favour be pleased to grant.

Now We, being moved, as well upon consideration of the original debt as upon consideration of debts contracted by the Petitioners, or those under whom they claim, and to which the said Pension or sum of Two Thousand Pounds, in case it had been paid, would have been applied, are graciously pleased, without taking upon Ourselves the burthen of paying any of the arrears thereupon from Lady-day One thousand seven hundred and fifteen as aforesaid, to revive the said Pension, so as the same shall be paid to the Petitioners, or those claiming under them, from Michaelmas last past, One thousand seven hundred and twenty-six. Our will and pleasure therefore is, and We do hereby direct, authorize and command you forthwith to give the necessary orders and directions for inserting the said yearly Pension of Two Hundred Pounds, for the said *Charles Hooper* and *Philip Martin*, widow, or those claiming under them, on the present and all future establishments of Our Civil Expense in that Kingdom, to commence from Michaelmas last

last past as aforesaid, and to be paid from time to time in like manner as other the Pensions on Our said establishment or establishments are paid or payable, until such time as the said sum of Two Thousand Pounds shall be satisfied and paid in one entire payment; and this shall be, as well to you for so doing as to our Lieutenant Deputy, or other Chief Governor or Governors of that Our Kingdom for the time being, as also to Our Receiver-General, and all others herein concerned, a sufficient Warrant. And so We bid you very heartily farewell. Given at Our Court at Kensington, this 15th day of December 1726, in the Thirteenth year of Our Reign.

By His Majesty's Command.

Walpole.
Will. Younge.
Geo. Dodington.

To Our right trusty and well-beloved Counsellor, John Lord Carteret, Lieutenant-General and General-Governor of Our Kingdom of Ireland, and to Our Lieutenant Deputy, or other Chief Governor or Governors thereof for the time being.

Entered at the Signet Office, 19th December 1726.

AN ESTIMATE of the Amount that may be required, in the Year 1831, to defray the Expenses incurred under the Direction and Management of the COMMISSIONERS of RECORDS.

Eleven Thousand Three Hundred and Twenty Pounds ;
Clear of Fees, and all other Deductions.

SIR,

Gray's Inn, 12th March 1831.

I AM directed by the Commissioners on the Public Records to acknowledge the receipt of your Letter of 10th February last, stating that the Lords Commissioners of His Majesty's Treasury request, that they will give directions that an Estimate may be prepared and transmitted to you, as soon as possible, for their Lordships' consideration, of the amount that will probably be required, during the year 1831, to defray the charge for Printing Works under their directions, and that their Lordships request that the Estimate may be so prepared as to exhibit the Expense anticipated under each separate head; also that their Lordships have desired you to state, that it appears to them it will be expedient that the Sum assigned annually as Rewards to the persons employed under the Commission, should be voted by Parliament upon estimate, in the same manner as the expense of Printing, instead of being paid, as heretofore, out of Civil Contingencies; and therefore request that they will at the same time transmit to their Lordships a Statement, in the usual detail, showing the amount which they recommend to be paid on this account during the year 1831. I am, in answer, commanded by the Commissioners to send you, for the information of their Lordships, the enclosed detailed Estimates of the Sums which, upon due consideration, they conceive will be requisite for Printing and Remuneration for the year 1831.

I am, &c.

Colonial Department,
31 December 1830. }

R. W. HAY.

SIR,

Downing Street, 13th January 1831.

I AM directed by Viscount Goderich to acquaint you, for the information of the Lords Commissioners of the Treasury, that in compliance with the desire expressed by their Lordships, that the Colonial Estimates for the ensuing year should be prepared with as little delay as possible, the whole of such Estimates as this Department is called upon to supply have, with one exception, been completed, and are transmitted to you in a separate letter of this date. The Estimate thus excepted is that for the establishment of Fernando Po; and upon this subject Lord Goderich has felt no small difficulty, in the midst of the financial embarrassments of the country, in coming to the decision that it is necessary to apply to Parliament for so large a sum as the maintenance of the establishment will require.

The Lords Commissioners are no doubt aware of the reasons which first induced the Colonial Department to recommend that the Courts of Mixed Commission for the adjudication of all cases of infraction of the Treaties for the Abolition of the Slave Trade should be removed from Sierra Leone to Fernando Po; those reasons were chiefly grounded on the alleged superiority of the climate of Fernando Po over that of Sierra Leone, and upon the advantage which the proximity of the Island to the seat of the Slave Trade would afford in saving a large proportion of human lives, which would otherwise fall a sacrifice to the length of the voyage from the Bight of Benin to Sierra Leone.

The Island was said to possess great varieties of climate, from the inequality in the elevation of the ground, as well as to offer the utmost variety of produce; and it was considered not improbable that a settlement might be gradually formed there which would facilitate the measure of withdrawing the establishments of government from Sierra Leone, and furnish a very eligible spot for the location of the slaves who might hereafter be liberated under the adjudication of the Courts of Mixed Commission.

The difficulties made by Spain in acceding to the removal of the Courts of Mixed Commission to that Island have for a length of time retarded the completion of that arrangement; those difficulties have been finally, however, overcome, although it is proper at the same time to observe, that the occupation of the small portion of the Island upon which the British Establishment has been placed is only agreed to by Spain for the temporary purposes of the Courts of Mixed Commission.

Under the circumstances of so uncertain a tenure, Lord Goderich would feel great doubts as to the propriety of expending any considerable sum in completing and keeping up the establishment now formed in the Island, if a Select Committee of the House of Commons had not, during the last session of Parliament, so strongly recommended the removal of the Courts of Mixed Commission to Fernando Po, that his Lordship considers himself scarcely at liberty to adopt a different view of the subject from that which has been deliberately formed by a body of persons selected by Parliament for the purpose of determining a question of so much importance.

Under these circumstances, his Lordship has directed me to desire that you will lay before the Lords Commissioners the accompanying Estimate, as containing the particulars of the establishment at Fernando Po, and of the probable cost of maintaining it during the ensuing year.

I am, Sir, your most obedient humble servant,

R. W. HAY.

T. Spring Rice, Esq.

SALARIES OF THE HOUSEHOLD AND OFFICERS OF STATE.
(Second Class.)

— 2. —

AN ESTIMATE of the probable future ANNUAL CHARGE upon the CIVIL LIST, in respect of the SALARIES of the Great Officers of the Household, of the several Establishments of the Household, and of other Officers attached to the Sovereign, including SUPERANNUATION ALLOWANCES to old Servants in the Departments of the Lord Chamberlain, Lord Steward, Master of the Horse, Master of the Robes, and Surveyor General of Works.

	£.	s.	d.
SALARIES of Lord Chamberlain, Vice Chamberlain, Groom of the Stole, Gentlemen and Grooms of the Bedchamber, and of the Officers of Ceremonies and Gentlemen Pensioners, and Salaries to the Officers and Servants within the Department, including Superannuation Allowances to former Servants - - - - -	61,280	10	-
Salaries of the Lord Steward, and Officers and Servants in that Department, including Superannuation Allowances to former Servants - - -	37,236	-	-
Salaries of the Master of the Horse, and of the Officers and Servants within that Department, including Superannuation Allowances to former Servants - - - - -	28,646	-	-
Salaries to the Master of the Robes, and to the Officers and Servants within that Department - - - - -	844	-	-
Salaries to the Surveyor General of Works, and to the Officers and Servants within that Department - - - - -	10,140	-	-
Salaries to the Auditor of the Civil List, and his Establishment - - -	2,400	-	-
	£.	140,546	10 -

It is proposed that the whole of these Salaries should in future be issued free of all deductions for Fees, &c.; and a corresponding diminution has therefore been made in all of them formerly subject to such charges. The Salaries of the Lord Chamberlain, Vice Chamberlain, Groom of the Stole, Lord Steward, Gentlemen of the Bedchamber, Grooms of the Bedchamber, Apothecary to the Person, and Apothecary to the Household, hitherto paid at the Exchequer, have, for the sake of uniformity, been added to the Establishments of their respective Offices. The Salaries of the Gentlemen Pensioners and Officers of Ceremonies have been transferred from the Seventh, to this Class, and those of the Auditor of the Civil List and his Establishment, from the Class of occasional Payments out of which the Charge has hitherto been defrayed.

	£.
The Amount appropriated by the Act 1 Geo. 4, c. 1, for these several Establishments, was - - - - -	149,621
Deduct Fees and Charges from which the Salaries will henceforth be relieved - - - - -	8,803
Charge provided for in 1820, less Fees, Land Tax, &c. - - - £.	140,818

In this Estimate, provision has been made for Allowances to old Servants, which on former occasions would have been charged on the Consolidated Fund, to the amount of 4,241 *l.* The Charge for the Establishments is therefore less by 4,519 *l.*

Whitehall, Treasury Chambers, }
2 November 1830.

GEO. R. DAWSON.

EXPENSES OF THE HOUSEHOLD.

(Third Class.)

— 3. —

AN ESTIMATE of the probable future ANNUAL CHARGE of the CIVIL LIST, in respect of the EXPENDITURE in the Departments of the Lord Steward, Lord Chamberlain, Master of the Horse, Master of the Robes, and Surveyor General of Works.

	£.
Lord Steward - - - - -	85,000
Lord Chamberlain - - - - -	43,000
Master of the Horse - - - - -	39,500
Master of the Robes - - - - -	4,000
Office of Works - - - - -	39,000
	£. 210,500

IN this Estimate the probable Charge for the Lord Chamberlain's Department is increased 3,000 *l.* when compared with the Estimates of 1816 and 1820; that for the Master of the Horse is diminished 500 *l.*; and that for the Office of Works, diminished 1,000 *l.*

The Increase is only a transfer of so much from the Class of Occasional Payments, to meet the charge for Messengers' Bills hereafter to be defrayed by the Lord Chamberlain, instead of being charged on the Class of Occasional Payments. It is proposed to grant the Civil List free of all Exchequer Fees in future; and the amount hitherto paid for those Fees is therefore deducted from the Estimate.

Whitehall, Treasury Chambers, }

GEO. R. DAWSON.

ROYAL BOUNTIES AND CHARITIES, SPECIAL SERVICE, &c.
(Fourth Class.)

— 4. —

AN ESTIMATE of the probable future ANNUAL CHANGE of the CIVIL LIST,
 in respect of ROYAL BOUNTIES and CHARITIES, SPECIAL and SECRET
 SERVICE.

	£.	s.	d.
Royal Bounty and Special Service - - - - -	9,000	-	-
Alms and Charities - - - - -	1,996	4	-
Chamberlain of London for Poor of the City - - - - -	1,000	-	-
His Majesty's Charity to Female Objects in Distress - - - - -	1,202	2	6
Home Secret Service - - - - -	10,000	-	-
	£.	23,198	6 6

This Class is reduced by the Amount of the Fees and other Deductions formerly made,
 and by the transfer to the Seventh Class of the Allowances to the Mayor, Aldermen and
 Sheriffs of London, and Chairman of Westminster Sessions.

Whitehall, Treasury Chambers, }

Copy of a Letter from *John Backhouse*, Esq. Under Secretary of State for the Foreign Department, to *George R. Dawson*, Esq. M.P. Secretary of the Treasury.

SIR,

Foreign Office, October 25th, 1830.

I HAVE laid before His Majesty's Principal Secretary of State for Foreign Affairs, your Letter of the 7th ult. stating the desire of the Lords Commissioners of His Majesty's Treasury, that his Lordship should cause an Estimate to be prepared of the future annual Expenditure of His Majesty's Diplomatic Service, distinguishing those Salaries which have hitherto been paid out of the Civil List, from those which have been provided for by separate Grants of Parliament.

I have accordingly been directed by the Earl of Aberdeen to transmit, for the consideration of the Lords of the Treasury, the accompanying Estimate, and a Statement, containing Specifications, in separate columns, of the Salaries and Allowances which were assigned by the last Regulations to the several Diplomatic Stations abroad therein named, and of the new Scale of Salaries and Allowances which his Lordship proposes to adopt for those situations.

In transmitting to you this Estimate of the future Allowances to His Majesty's Diplomatic Servants abroad, I am directed by Lord Aberdeen to refer you to the Letters upon this subject, which were addressed to the Treasury by one of the Under Secretaries of State for this Department, on the 22d of May 1815, on the 28th of September 1825, and on the 5th of January 1827,—and to make to you, for the information of their Lordships, the following statements and observations.

The Estimate submitted to Parliament in 1815, of the ordinary Allowances to His Majesty's Diplomatic Servants abroad, amounted to,

For Salaries	-	-	-	-	-	£. 152,200
And for House Rent	-	-	-	-	-	9,100
Total	-	-	-	-	-	<u>£. 161,300</u>

The Estimate submitted in 1816, for the same Service, was—

For Salaries	-	-	-	-	-	£. 135,850
And for House Rent	-	-	-	-	-	9,100
Total	-	-	-	-	-	<u>£. 144,950</u>

And this last-mentioned Amount was adopted in the Acts of 56 Geo. 3, c. 46, and 1 Geo. 4, c. 1, as the portion of the Grant for the Third Class of his late Majesty's Civil List set apart for the ordinary Allowances of the King's Diplomatic Servants abroad.

By the Estimate, which is now transmitted, the Salaries for the several Missions included in the Estimate of 1816, are brought down to

-	-	-	-	-	-	£. 109,550
And the Allowance for House Rent, to	-	-	-	-	-	8,250
Total	-	-	-	-	-	<u>£. 117,800</u>

forming a reduction of 27,150 *l.* from the Estimate of the year 1816.

The appointment, by His Majesty, subsequently to the year 1825, of Diplomatic Agents to reside in the New States of America, has occasioned a considerable annual Expenditure, not provided for under the Civil List Acts of 1816 and 1820: this Expenditure has accordingly been met by annual Grants of Parliament, voted for the special and separate purpose. It has amounted, upon an average of the last five years, to about 34,000 *l.* per annum. Lord Aberdeen has already effected considerable reductions under this head: further reductions have been directed; and his Lordship now proposes that the Salaries, thus reduced, of His Majesty's Diplomatic Agents in the New States of America, shall in future form part of the Expenditure to be defrayed from the grant for the Third Class of the Civil List. The Estimate for this portion of the Diplomatic Service is,

For Salaries	-	-	-	-	-	£. 16,450
For House Rent	-	-	-	-	-	1,600
Total	-	-	-	-	-	<u>£. 18,050</u>

To this must be added the Charge for the Mission to Greece established in 1829, amounting to 2,600 *l.*

A further Charge on this portion of the Third Class of the Civil List, arises from the effect of the regulation which the King was graciously pleased to sanction in 1827, in consideration of the long, and in most cases gratuitous employment of individuals in the Diplomatic Service before they obtain their first commissions as Secretaries of Legation,—and of the slowness of their promotion after they have obtained it.

By this regulation it was provided, “ that in cases where a Secretary of Legation shall have held that rank for a period exceeding ten years, he shall be entitled to an addition at the rate of 250 *l.* a year to the salary which he then receives; such addition to continue whilst he shall remain a Secretary of Legation.”

It is estimated that this Charge cannot exceed 1,000 *l.* in any one year.

Notwithstanding these various additional charges, Lord Aberdeen submits to the consideration of the Lords Commissioners of His Majesty's Treasury, the present Estimate of 140,000 *l.* as sufficient for the Salaries, and for the Allowances for House Rent of His Majesty's Diplomatic Servants *in all parts of the world.*

It was proposed by the Regulations of 1815 and 1816, that His Majesty's Diplomatic Servants should receive their Salaries *free of all deductions.* Hitherto, however, the deductions established by ancient Regulations have continued to be made at the Treasury and the Exchequer,—the amount of them being eventually reimbursed out of Civil Contingencies, to the individuals of the Diplomatic body, upon Quarterly Statements made up at the Foreign Office, and transmitted to the Treasury.

Lord Aberdeen is of opinion, that in the settlement of the new Civil List, the inconvenience resulting from this practice should be avoided, and that the Salaries and Allowances to His Majesty's Diplomatic Servants should be *issued from the Exchequer without fee or deduction whatever.* Should their Lordships concur in this suggestion, the Grant for Civil Contingencies will be relieved from a charge which has hitherto averaged about 8,000 *l.* a year.

The Foreign Ministers are further relieved from the payment of certain Fees and Stamp Duties levied upon their appointments; those Fees and Duties (defrayed in the first instance by the Chief Clerk of the Foreign Office,) being reimbursed by an issue from the Treasury out of the Fund for Civil Contingencies.

Under the Regulations of 1825, the sum allotted as a full outfit was granted to an individual in four cases; viz.—upon his first appointment as a Secretary of Legation or of Embassy,—or as a Minister or Envoy,—or as an Ambassador,—or on his being recalled into employment after an interval of more than twelve months duration;—and portions of outfit, varying from two-thirds to one-half, were granted in other cases of promotion, or of removal from one post to another. Lord Aberdeen has decided, that temporary cessation of employment of more than a year's duration, shall not, henceforward, be considered a title to a second full outfit. In other respects he proposes that the principle laid down in the Regulations of 1825 shall generally be adhered to. But his Lordship has determined that the allowances for outfit shall be made upon a reduced scale, according to the Statement annexed to this Letter; which will diminish the annual average charge from about 10,000 *l.* a year to about 6,000 *l.*

The rate of allowance for House Rent has already been reduced in several instances; and it has further been determined that no Allowance for House Rent shall, in future, be made for any period *antecedent* to the arrival of an Ambassador, Envoy or Minister, at his post, or *subsequent* to the cessation of his functions.

It is still proposed, as a general rule, that the Salaries of His Majesty's Diplomatic Servants abroad shall commence ten days previously to their actual departure for their posts, and shall terminate ten days after their return, on the cessation of their Missions. But as cases may occur wherein it may be right that the Salary should commence earlier than is here stated, and as, on the other hand, it will frequently be found proper to discontinue the Salary before the Minister returns to England, Lord Aberdeen is of opinion that a discretion should still be left to the Secretary of State to decide, in special cases, upon the period of the commencement and of the termination of the Salary.

A deduction of one half of the Salary of an Ambassador, Envoy or Minister, will henceforward be made, during his absence, on private grounds, from his post.

The allowance to an Acting Minister, or *Chargé d'Affaires*, instead of being fixed uniformly at 5 *l.* a day to all Ministers Plenipotentiary, and 3 *l.* a day to all *Chargés d'Affaires*, has been graduated with closer reference to the Residences and Salaries of the Principals, in whose absence they act, agreeably to the List which forms part of the Statement annexed to this Letter.

In conformity with the Regulations of 1815 and 1816, a Service of Plate for the Ambassador's Chapel and Table has been provided at the Public Expense for the Embassies at Paris, St. Petersburg, Vienna, and the Netherlands; and for the Table only at Constantinople, Lisbon, Berlin and Madrid; such Service of Plate being for the use of the Ambassador or Minister for the time being, to be taken care of at his cost and charge, and delivered to his successor according to an inventory received with the Plate; duplicates of which inventory are deposited in the Foreign Office, and in the Office of the Lord Chamberlain. No further expense is contemplated, for some time, under this head, at any of the above-mentioned Courts; and the custom of giving to an Ambassador or Minister, personally, a service of plate, or any allowance in lieu thereof, has, since the date of those Regulations, been entirely abolished.

A similar Regulation has taken place in regard to Their Majesties' Pictures, which form part of the State of an Ambassador. These Pictures were formerly given to each Ambassador on his appointment; they are now provided for each Embassy, and remain with the Embassy, upon the appointment of a new Ambassador. Pictures of *Their present Majesties* will accordingly be supplied for His Majesty's Embassies at Paris, St. Petersburg, The Hague, Vienna, and Constantinople.

The Regulation still exists, that “no Ambassador or Minister is entitled to demand any reimbursement whatever for expenses incurred by him on account of his Household or Maintenance, “except in the case of Special Missions, the expenses of which are laid before Parliament in the Session next ensuing that in which they are incurred, and are provided for under the head of Civil Contingencies.”

The customary Charges for extra disbursements, allowed to His Majesty's Ministers abroad, are comprised under the following heads:

1. The amount of Postage incurred by His Majesty's Ministers in the performance of their Public Duty; under which head of Charge (in its nature fluctuating and uncertain) Lord Aberdeen hopes to effect a diminution of Expenditure.
2. The expense of despatching extra Couriers on His Majesty's special service.

3. The

3. The actual expense of journeys performed by the King's Diplomatic Servants abroad on His Majesty's Service; and in special cases, an additional allowance, according to circumstances, for the expense of attending a Foreign Sovereign on a journey, or in the field—when such attendance has taken place by the express direction, or has specially received the sanction, of the Secretary of State.
4. The Expense of fêtes and illuminations on public rejoicings; and of mourning to Ambassadors and their Establishments, on special occasions, on the death either of their own Sovereign, or of the Sovereign to whom they are accredited;—the expense being previously sanctioned by the Secretary of State, upon an Estimate sent home by the Minister.
5. The Loss by Exchange (duly certified) incurred by Bills drawn on account of the Diplomatic Allowances of the Minister.
6. In those Missions, where there is a Chaplain, or paid Attaché, the Salary or Allowance to such Chaplain or Attaché.

If any description of Charge, not herein specified, should on any special occasion be considered indispensable for the Public Service, the question of its payment by the Public must be previously submitted for the sanction of the Secretary of State.

The Head of each Mission will send to the Foreign Office, at the termination of each Quarter of a Year, the Account, accompanied by proper Vouchers, of such extra Disbursements as may have been incurred during the Quarter then ended. The several items of these extra Charges, and of the Sums allowed for Outfits, are proposed to be annually submitted to Parliament (as heretofore) under the head of "Civil Contingencies."

With respect to the expense of the journey of a Minister to his post, and of his return home, Lord Aberdeen has decided that it shall no longer be a charge upon the Public,—whereby a saving will be effected of about 5,000 *l.* a year. But his Lordship is of opinion, that the expense of passages on board of His Majesty's Ships for the King's Diplomatic Servants—and occasionally for Foreigners of distinction, to whom political considerations may make it expedient that passages should be afforded, cannot be altogether discontinued. It will, however, be kept within as narrow limits as the nature of the service and the interests of the Public will permit.

In the Civil List Acts of 1816 and 1820, 30,000 *l.* a year of the Grant for the Third Class was set apart for Salaries to His Majesty's Consuls; but in the year 1826, those Officers having, with the sanction of Parliament, been placed upon a new footing, by the abolition of the Fees on British Trade and Shipping, and by the substitution of Salaries proportioned to the nature and importance of the respective Duties of each Consul, the expenditure for this head of Service has, since that period, exceeded the portion of the Third Class of the Civil List thus set apart for it. The establishment of Consuls, in the New States of America, has further contributed to increase this excess of Expenditure, which has accordingly been provided for by annual Grants of Parliament. Under these circumstances, Lord Aberdeen, although contemplating a considerable reduction of Charge for this service by a modification of the existing system, proposes, for the consideration of the Lords Commissioners of the Treasury, that no part of the Consular Expenditure shall henceforward be a Charge upon the Civil List, but that a detailed Estimate of its whole amount shall be annually submitted to Parliament.

Should their Lordships concur in this arrangement, it will be necessary that other measures should be taken for providing for the deficiency in the Grant for the Consular Service for the year 1830; the termination of the late Civil List on the 26th of June last, having left unprovided for, that portion of the 30,000 *l.* of the Third Class annually set apart for Consular Salaries, which would have been applicable to the period from the 26th of June 1830 to the 5th of January 1831.

With respect to Diplomatic Pensions, the Lords of the Treasury are aware that the Secretary of State has not, within his own Department, any means of knowing with accuracy the amount actually issued at the Treasury and Exchequer to retired Foreign Ministers, and charged upon the Third Class of the Civil List. In the Civil List Acts of 1816 and 1820, this section of the Third Class was estimated at 52,000 *l.* a year. In the 3d Report of the Finance Committee of the House of Commons, of 1828, the Committee recommended that this annual amount should, under certain regulations, be eventually reduced to 40,000 *l.* a year. Lord Aberdeen desires me to state that his Lordship has hitherto acted upon the recommendation of that Committee, with respect to the Scale and Conditions of Diplomatic Pensions, in the decision of all claims which have come before him subsequently to the date of that Report.

As, in many instances, the proposed Salaries and Allowances for House Rent in the annexed Estimate, are greatly reduced in amount, Lord Aberdeen is of opinion that it would not be just towards those individuals who are now serving in Diplomatic situations at Foreign Courts, that the reductions should take effect before the 5th of January 1831. With respect to all new appointments the reductions will take effect immediately.

In concluding this Letter, Lord Aberdeen must again draw the attention of the Lords of the Treasury to the fact, of the very considerable reduction which has been effected in the amount of Salaries to His Majesty's Diplomatic Servants, compared with their amount in the year 1825, when the modifications and retrenchments introduced by the Secretary of State up to that period were submitted to their Lordships. The Lords of the Treasury will see that the gross amount of the present Estimate is below that of 1816, notwithstanding that provision is therein made for five New Missions, which circumstances have since called into activity. Their Lordships will further observe, that the other Allowances and Disbursements, connected with the active portion of the King's Diplomatic Service abroad, have already been reduced in amount, and will be further diminished by the new Regulations described in this Letter.

I am, Sir,
Your most obedient humble servant,

J. Backhouse.

(a)—These Annuities, since the demise of his late Majesty, have been paid out of the Hereditary Revenues of the Crown, per Act 18 Geo. III. c. 31.

(b)—This Annuity not to be payable in respect of any period when the Prince of Cumberland shall be out of the kingdom, unless with consent of His Majesty.

(c)—In case of the demise of any of the four Princesses, or upon the marriage of any one of them, on the payment of a marriage portion of £. 40,000, the interest of such Princess so dying or being married shall cease, and the Annuity of £. 36,000 shall accrue and remain in the three other Princesses; but none of the above Princesses can receive more than £. 12,000 each, under the provisions of the Act 52 Geo. III. c. 57. s. 2.

IN addition to the foregoing Pensions, there are now charged upon the Consolidated Fund by the Acts 46 Geo. III. c. 145, and 47 Geo. III. c. 39, and 1 Geo. IV. c. 108, two Pensions, amounting together to £. 8,500, for the life of His present Majesty; and by the Act 7 & 8 Geo. 4. c. 10, a Pension of £. 6,000 for the life of Her Majesty, granted, while Duke and Duchess of Clarence, for the term of their natural lives. The Acts granting these Pensions will be repealed by the Act granting a Civil List to His Majesty, and the Amount will be repaid to the Consolidated Fund from the Privy Purse of Their Majesties.

PENSIONS ON THE CIVIL LIST, ENGLAND.

* Sess. Paper,
No. 42.

THE Return of Pensions on the Civil List, presented on the 2d December*, contains all the Pensions granted up to the close of the Reign of his late Majesty GEORGE the Fourth; and the Civil List to be assigned to His present Majesty not having yet received the sanction of Parliament, the formal Documents which are required previous to the payment of any of the Pensions granted by His present Majesty cannot yet be completed.

HIS MAJESTY has however been pleased to direct, through the First Lord of the Treasury, by Communications addressed by his Grace to the Board of Treasury, and dated respectively, as will appear in the following Return, that Warrants should be prepared for granting the following Pensions on the Civil List.

Ordered, by The House of Commons, to be Printed, 3 February 1831.

GEORGE R.

RIGHT trusty and well-beloved Counsellor, We greet you well. Whereas Our late royal predecessor, King William the Third, by Letters under his Royal Sign Manual, bearing date the 17th day of April 1700, to the then Chief Governor or Governors of the Kingdom of Ireland directed, was pleased to order and appoint that a yearly Pension of Two Hundred Pounds should be paid unto James Waller, then Lieutenant-Governor of Charlesfort and Kinsale, in the said Kingdom, from the time and in manner therein-mentioned, until the sum of Two Thousand Pounds should be satisfied and paid him in one entire payment, which said sum of Two Thousand Pounds is therein set forth to have been expended in his said late Majesty's service, towards subsisting and transporting French prisoners during the then late rebellion there. And whereas We are given to understand that the said sum of Two Thousand Pounds hath not yet been paid, and that the Pension payable in respect thereof hath been received to the Twenty-fifth day of March, which was in the year of Our Lord One thousand seven hundred and fifteen, and no longer.

And whereas the Commissioners of Our Treasury here have laid before Us Our Letter of the Twenty-sixth of July last past, with a Report of Our Solicitor-General there, made on the Petition of Charles Hooper, of the city of London, and Philip Martin, widow and executrix of John Martin, Esquire, deceased, praying that the said Pension may be re-established again, and the arrears thereon paid ; by which Report it (among other things) appears, that the said Pension, after being so granted, was purchased for a valuable consideration, and the Petitioners' title is well derived to the same under the said purchase ; but as the original charge thereof on the Revenue was created only by a Letter under his said late Majesty's Sign Manual, the Petitioners can have no relief but such as We, upon consideration of the circumstances of the case, shall of Our grace and favour be pleased to grant.

Now We, being moved, as well upon consideration of the original debt as upon consideration of debts contracted by the Petitioners, or those under whom they claim, and to which the said Pension or sum of Two Thousand Pounds, in case it had been paid, would have been applied, are graciously pleased, without taking upon Ourselves the burthen of paying any of the arrears thereupon from Lady-day One thousand seven hundred and fifteen as aforesaid, to revive the said Pension, so as the same shall be paid to the Petitioners, or those claiming under them, from Michaelmas last past, One thousand seven hundred and twenty-six. Our will and pleasure

pleasure therefore is, and We do hereby direct, authorize and command you forthwith to give the necessary orders and directions for inserting the said yearly Pension of Two Hundred Pounds, for the said Charles Hooper and Philip Martin, widow, or those claiming under them, on the present and all future establishments of Our Civil Expense in that Kingdom, to commence from Michaelmas last past as aforesaid, and to be paid from time to time in like manner as other the Pensions on Our said establishment or establishments are paid or payable, until such time as the said sum of Two Thousand Pounds shall be satisfied and paid in one entire payment; and this shall be, as well to you for so doing as to our Lieutenant Deputy, or other Chief Governor or Governors of that Our Kingdom for the time being, as also to Our Receiver-General, and all others herein concerned, a sufficient Warrant. And so We bid you very heartily farewell. Given at Our Court at Kensington, this 15th day of December 1726, in the Thirteenth year of Our Reign.

By His Majesty's Command.

Walpole.

Will. Younge.

Geo. Dodington.

To Our right trusty and well-beloved Counsellor, John Lord Carteret, Lieutenant-General and General-Governor of Our Kingdom of Ireland, and to Our Lieutenant Deputy, or other Chief Governor or Governors thereof for the time being.
